Notice Regarding the Acquisition and Cancellation of the 22nd Series of Stock Acquisition Rights (Paid Stock Options)

With respect to the 22nd series of stock acquisition rights, which are paid stock options issued by the Company on 10 July 2025 (the "Stock Acquisition Rights"), although the Company had expected to exceed consolidated net sales of ¥5.0 billion, which was the performance condition for the Stock Acquisition Rights, for the fiscal year ending March 2026, by 31 March 2026 the Company had received declarations of intent from all directors and executive officers who were allotted the Stock Acquisition Rights (the "Allottees"), stating that they would waive all of the Stock Acquisition Rights if the Company was expected to fall below the consolidated operating profit forecast announced in the revised earnings forecast dated 6 January 2026.
In light of the above, at the meeting of the Board of Directors held today, the Company resolved to acquire all of the Stock Acquisition Rights without consideration and to cancel them immediately after such acquisition. Accordingly, the Company hereby announces as follows.

1. Overview of the Acquisition and Cancellation of the Stock Acquisition Rights

(1)	Name of the Stock Acquisition Rights	22nd Series of Stock Acquisition Rights of Datasection Inc.
(2)	Acquisition Price and Total Amount	¥1,344 per Stock Acquisition Right (total amount: ¥8,483,328)
(3)	Number of Stock Acquisition Rights Acquired	6,312 Stock Acquisition Rights (equivalent to 631,200 shares) Breakdown: Directors (3 persons): 5,260 Stock Acquisition Rights (526,000 shares) Executive Officers (2 persons): 1,052 Stock Acquisition Rights (105,200 shares)
(4)	Date of Acquisition and Cancellation	16 April 2026
(5)	Number of Stock Acquisition Rights Outstanding after Cancellation	None

2. Background to the Matter

The Stock Acquisition Rights were issued with the aim of further enhancing motivation and morale, strengthening the Company's unity, promoting a strong commitment towards the achievement of performance targets, and realising sustainable growth, in pursuit of the Company's medium- to long-term expansion in business performance and enhancement of corporate value.

In the fiscal year ending March 2026, while the Company's new strategic core business, namely the AI infrastructure business—into which management resources have been intensively allocated since the previous fiscal year—has progressed and expanded, and is expected to exceed the performance condition for the Stock Acquisition Rights of consolidated net sales of ¥5.0 billion, the Company is expected to fall below the profit levels at each stage set out in the revised earnings forecast announced on 6 January 2026.

Given that the Company has recorded consolidated operating losses for three consecutive fiscal years in the past, and is currently promoting a new business of a significantly larger scale compared to its existing businesses, there is a shared recognition that maintaining and enhancing trust with existing shareholders, financial institutions and other stakeholders, and continuing to secure their strong support, is of the utmost importance to the Company's management. Under such recognition, in order to achieve the consolidated operating profit set out in the revised earnings forecast, the Company has received declarations of intent from all of the Allottees to waive the Stock Acquisition Rights, and this measure has been implemented with the objective of reducing share-based compensation expenses for the fiscal year ending March 2026.

Accordingly, the Allottees' commitment to the management of the Company remains unchanged, and the Company will consider a revised incentive plan aimed at further strengthening such commitment.

3. Outlook

As a result of this matter, share-based compensation expenses of ¥818 million, which had been scheduled to be recorded as selling, general and administrative expenses for the fiscal year ending March 2026, will be reduced. This impact has already been reflected in the revised consolidated earnings forecast for the fiscal year ending March 2026 announced today.
