QuidelOrtho™

Forward-Looking Statements

Forward-Looking Statements: This presentation of QuidelOrtho Corporation ("QuidelOrtho" or the "Company") contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include any statements contained herein that are not strictly historical, including, but not limited to, the synergies and other benefits and results of the business combination (the "Combinations") of Quidel Corporation ("Quidel") and Ortho Clinical Diagnostics Holdings plc ("Ortho") and integration of the businesses of Quidel and Ortho, including QuidelOrtho's execution of cost and revenue synergies, and QuidelOrtho's commercial, regulatory, integration, transformation, and other strategic goals, future financial and operating results, and future plans, objectives, strategies, expectations and intentions. These statements in this presentation may be identified by words such as "may," "will," "would," "should," "might," "expect," "anticipate," "believe," "estimate," "plan," "intend," "goal," "project," "strategy," "future," "continue" or similar words, expressions or the negative of such terms or other comparable terminology. Such statements are based on the beliefs and expectations of QuidelOrtho's management as of today and are subject to significant known and unknown risks and uncertainties. Actual results or outcomes may differ significantly from those set forth or implied in the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth or implied in the forward-looking statements: the challenges and costs of integrating, restructuring and achieving anticipated synergies as a result of the Combinations; the ability to retain key employees; and other economic, business, competitive and/or regulatory factors affecting the business of QuidelOrtho generally. Additional risks and factors are identified under "Risk Factors" in QuidelOrtho's Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "Commission") on February 23, 2023 and subsequent reports filed with the Commission. You should not rely on forward-looking statements as predictions of future events because these statements are based on assumptions that may not come true and are speculative by their nature. QuidelOrtho undertakes no obligation to update any of the forward-looking information or time-sensitive information included in this presentation, whether as a result of new information, future events, changed expectations or otherwise, except as required by law. All forward-looking statements are based on information currently available to QuidelOrtho and speak only as of the date hereof.

Supplemental Combined Financial Measures and Non-GAAP Financial Measures

Supplemental Combined Financial Measures: This presentation contains unaudited supplemental combined financial information ("Supplemental Combined Information") that gives effect to the Combinations as if Quidel and Ortho had been combined for the applicable periods. Certain Supplemental Combined Information presented is based on the historical financial statements of Quidel and Ortho with reclassification adjustments only and do not include all of the pro forma adjustments required under Regulation S-X Article 11 or Accounting Standards Codification 805, Business Combinations ("ASC 805"). The Supplemental Combined Information is provided for illustrative purposes only, may be updated in the future, and is not necessarily, and should not be assumed to be, indicative of the Company's expected results of operations or financial position that would have been achieved had the Combinations been completed as of the dates indicated or that may be achieved in any future period. The Supplemental Combined Information should be considered supplemental to, and not as a substitute for, pro forma financial information prepared in accordance with Regulation S-X Article 11 or ASC 805 and should be read in conjunction with the information contained in the sections entitled "The Combinations," "Management's Discussion and Analysis of Financial Condition and Results of Operations of Ortho" and "Management's Discussion and Analysis of Financial Condition and Results of Operations of Quidel" in QuidelOrtho's joint proxy statement/prospectus (the "Joint Proxy Statement/Prospectus") filed with the Commission on April 11, 2022 and the historical consolidated financial statements and related notes appearing elsewhere in, or incorporated into, the Joint Proxy Statement/Prospectus, and the Company's subsequent reports filed with the Commission. The Company's actual results of operations and financial position will differ, potentially significantly, from the Supplemental Combined Information reflected in this presentation as a result of the methodology used to prepare the Supplemental Combined Information as well as a variety of factors, including but not limited to the effect of certain expected financial benefits of the Combinations (such as revenue and cost synergies), the anticipated costs to achieve these benefits (including the cost of integration activities), tax impacts, and changes in operating results following the date of this presentation.

Non-GAAP Financial Measures: This presentation contains financial measures, including but not limited to "constant currency" revenue changes, "adjusted net income," "adjusted diluted EPS," "adjusted EBITDA," "adjusted EBITDA margin," "supplemental combined adjusted net income," "supplemental combined adjusted diluted EPS," "supplemental combined adjusted EBITDA" and "supplemental combined adjusted EBITDA margin," which are considered non-GAAP financial measures under applicable rules and regulations of the Commission. These non-GAAP financial measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). "Adjusted net income," "adjusted EBITDA" and "adjusted diluted EPS" eliminate impacts of certain non-cash, unusual or other items that the Company does not consider indicative of its ongoing operating performance, and the Company generally uses these non-GAAP financial measures to facilitate management's financial and operational decision-making, including evaluation of the Company's historical operating results and comparison to competitors' operating results. The Company believes that "supplemental combined adjusted net income," "supplemental combined adjusted diluted EPS," "supplemental combined adjusted EBITDA" and "supplemental combined adjusted EBITDA margin" provide helpful Supplemental Combined Information to assist management and investors in evaluating the Company's adjusted operating results as if Quidel and Ortho had been combined for the applicable periods. The Company's definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with GAAP results and the reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the Company's business. Because non-GAAP financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, management strongly encourages investors to review the Company's consolidated financial statements and reports filed with the Commission in their entirety. Reconciliations of the non-GAAP financial measures, including the non-GAAP Supplemental Combined Information, to the most directly comparable GAAP financial measures are included in the Appendix at the end of this presentation.

2Q 2023 Highlights[1]

- Solid financial results as we executed on our three near-term growth drivers
- Non-respiratory revenue up 4% y/y on a supplemental combined basis, but would have been up 7% excluding donor screening
- High-single-digit growth in Labs business, increasing strength in Triage, and normalization of immunohematology
- Non-respiratory growth across most major geographic regions, including continued strong performance in China

Total Revenue
$665M
(26%) y/y[1]

Adjusted EBITDA
$113M[2]
17.0% Margin[1]

Adjusted EPS
$0.26[2]
(88)% y/y[1]

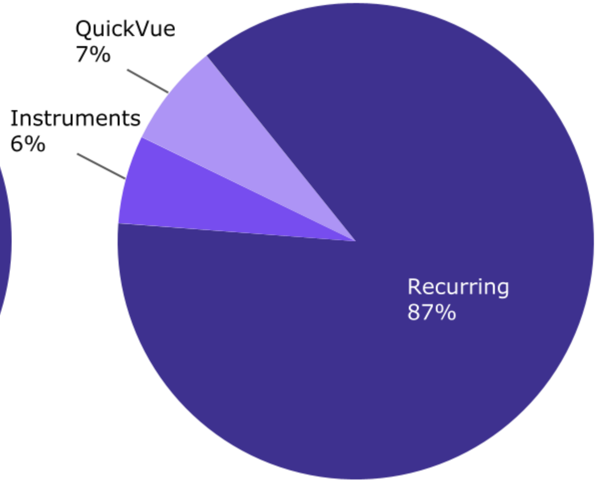
Category



1. Includes presentation of supplemental combined second quarter 2022 revenues and adjusted operating results as if Quidel and Ortho had been combined for the applicable periods; revenue growth rates are shown on a constant currency basis; the term "constant currency" means we have translated local currency revenues for all reporting periods to U.S. dollars using internally derived currency exchange rates held constant for each period; this additional non-GAAP financial information is not meant to be considered in isolation from or as a substitute for financial information prepared in accordance with GAAP. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric.
2. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric.

A Clear Path to Meaningful Growth Over the Next Few Years

Three near-term initiatives that we are acutely focused on are Vitros, Sofia, and Savanna

Vitros® System

Installed base is fueled by the placement of integrated analyzers

Small to Medium-sized Hospitals

- Integrated installed base up 13% and automation up 20%, key drivers of future pull-through of higher growth, higher margin immunoassays
- Produced ~10% more instruments than the strong 1Q23 level
- Reduced open orders by ~40% even as new instrument demand was strong

Sofia® Platform

Sophisticated yet easy-to-use Point-of-Care device for multiple types of testing

Hospitals, POC, UC, EDs

- Cumulative installed base steady at 87K instruments, as expected given outside of peak respiratory season
- R&D efforts underway to capitalize on large installed base
- Non-COVID outsales per instrument grew 14% y/y (TTM) as utilization approaches pre-pandemic levels
- Only 6% of U.S. customers are running for only COVID-19

Savanna® MDx

Revolutionary new molecular platform utilizing real-time PCR and syndromic panels

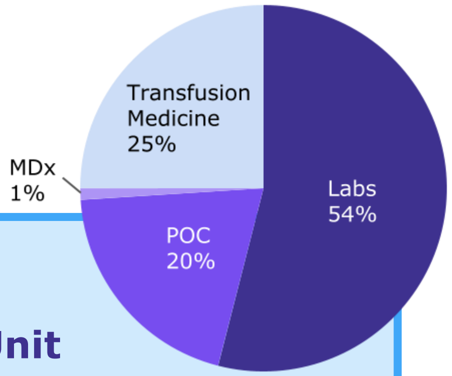
Hospitals, POC, UC, EDs

- Emergency Use Authorization and 510(k) FDA submissions completed as planned, including 510(k)s for the instrument and both RVP4 and HSV/VZV lesion panels
- Second low volume line completed validation and joined first line in producing cartridges in anticipation of U.S. launch

Financial Results

QuidelOrtho™

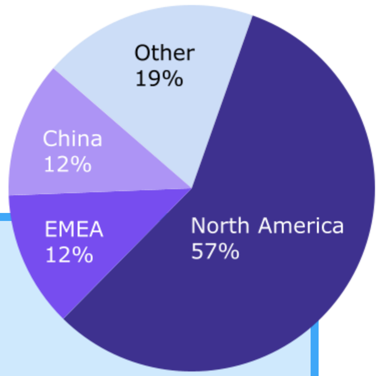
2Q 2023 Supplemental Combined Revenue Results[1]



Revenue by Business Unit

POC (64)% [(5)% non-respiratory]
Labs[2] 7% [+9% non-respiratory]
TM (3)% [(3)% non-respiratory]
MDx (70)% [(7)% non-respiratory]

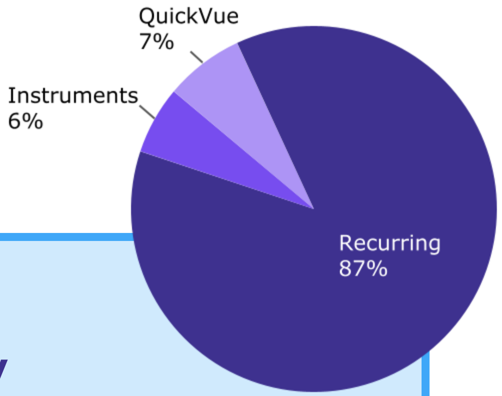
- **Point of Care (POC)** decline on COVID retail weakness following PHE end partially offset by growth in professional COVID and Triage
- **Labs** growth driven by both recurring and instrument revenue; reduced open orders by ~40% enabling more instruments to be shipped
- **Transfusion Medicine (TM)** weakness driven by donor screening, partially offset by solid immunohematology growth
- **Molecular Diagnostics (MDx)** decline driven by Lyra weakness, offset by growth in Savanna



Revenue by Geography

North America (36)% [(2)% non-respiratory]
EMEA (3)% [+4% non-respiratory]
China (13%) [+26% non-respiratory]
Other regions[3] +1% [+9% non-respiratory]

- **North America** delivered strength in Labs revenue, but non-respiratory revenue declined due to weakness in donor screening
- **EMEA** non-respiratory revenue growth driven by Labs and immunohematology
- **China** experienced strength in Labs due to strong Hospital demand, as well as growth contribution from Triage and Sofia as revenue synergies are further realized



Revenue by Category

Recurring 0% [+4% non-respiratory]
QuickVue (84)% [(52)% non-respiratory]
Instrument +10%

- **Recurring revenue** non-respiratory growth would have been 6%, excluding donor screening, driven by a return to pre-pandemic utilization and strong instrument placements over last few years
- **QuickVue revenue** weakness due to the end of the PHE
- **Instrument revenue** revenue growth due to robust demand and reduction in open Labs instrument orders by ~40%

1. All dollar amounts are in millions. Includes presentation of supplemental combined second quarter 2022 revenues and adjusted operating results as if Quidel and Ortho had been combined for the applicable periods. Revenue growth rates are shown on a constant currency basis; the term "constant currency" means we have translated local currency revenues for all reporting periods to U.S. dollars using internally derived currency exchange rates held constant for each period; this additional non-GAAP financial information is not meant to be considered in isolation from or as a substitute for financial information prepared in accordance with GAAP. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric.
2. Labs includes legacy Ortho Clinical Labs and non-core revenue, as well as legacy Quidel Specialized Diagnostic Solutions business.
3. Other regions include Latin America, Japan and other Asia-Pacific markets.

Operating Results Summary[1]

Solid results outside of respiratory season demonstrate resiliency of our business model

2Q 2023 Highlights

- Adjusted Gross Profit Margin of 45.6% was down year-over-year due to both strong instrument revenue and the decline in COVID-related revenue
- Adjusted EBITDA declined to $113.3M, representing an Adjusted EBITDA margin of 17.0%, slightly above our expectations due to the strong revenue

	Fiscal Quarter Ended[1]	
	2Q23	2Q22[2]
Total Revenue	**$665.1**	**$898.5**
Constant Currency[3] Growth	(25.9%)	
Adjusted Gross Profit	$303.2	$481.7
Adjusted Gross Profit Margin	45.6%	53.6%
Adjusted Diluted EPS	$0.26	$2.12
Adjusted Diluted EPS Growth	(88%)	
Adjusted EBITDA	$113.3	$290.8
Adjusted EBITDA Margin	17.0%	32.4%

Unless otherwise noted, dollars and growth rates are at actual foreign exchange rates.
1. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric.
2. Includes presentation of supplemental combined second quarter 2022 revenues and adjusted operating results as if Quidel and Ortho had been combined for the applicable periods. This additional non-GAAP financial information is not meant to be considered in isolation from or as a substitute for financial information prepared in accordance with GAAP.
3. The term "constant currency" means we have translated local currency revenues for all reporting periods into U.S. dollars using the same comparable foreign currency exchange rates.

Strong Balance Sheet and FY Cash Flow Outlook Provide Flexibility and Stability

2Q23 cash flow affected by seasonality of cash flows, but we expect FY 2023 adjusted free cash flow to be more than 100% of adjusted net income

2Q 2023 Cash Flow[1]

$(31)M
Operating Cash Flow[2]

$(30)M
Adjusted Free Cash Flow[3]

$49M
Capital Expenditures[2]

2Q 2023 Balance Sheet[1]

$248M
Cash & Marketable Securities

~2.8x
Net Debt to Adjusted EBITDA[4]

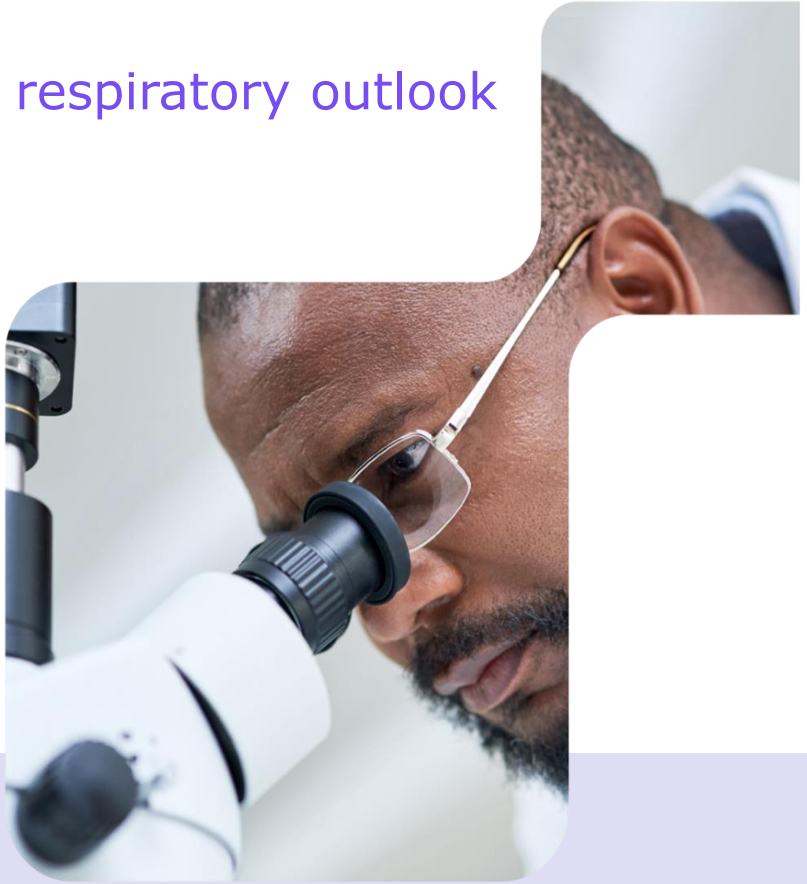
$2.5B
Total Debt

1. As of and for the three months ended 2Q23.
2. 2Q23 GAAP cash flows.
3. Management estimate of adjusted free cash flow reflecting operating cash flow less capex and $33 million in acquisition, integration and other costs, and $16 million in integration-related capital expenditures.
4. Based on management estimates for trailing 12 months EBITDA and 2Q23 net debt.

Updating FY 2023 Guidance[1]

Change reflects stronger labs outlook offset by prudent change in respiratory outlook

Financial Outlook	FY 2023 As of Q2'23 Reporting	FY 2023 As of Q1'23 Reporting	Change (at Midpoint)
Non-respiratory Revenue *Constant currency growth*	\$2.27B – \$2.31B *+5% – 6.5%*	\$2.26 – \$2.31B *+4.5% – 6.5%*	+\$5M
Respiratory Revenue	\$610M – \$775M	\$610M – \$875M	(\$50M)
Total Revenue *Constant currency growth*	\$2.88B – \$3.08B *Down 29% - 24%*	\$2.87B – \$3.18B *Down 29% – 21%*	(\$45M)
Adjusted EBITDA *Margin*	\$800M – \$830M *26.9% – 27.7%*	\$815M – \$865M *27.2% – 28.3%*	(\$25M)
Adjusted Diluted EPS	\$4.85 – \$5.30	\$5.15 – \$5.70	(\$0.35)



Additional Assumptions

- Respiratory Revenue includes COVID-related revenue of \$300 - \$400 million
- While 2022 included a record-setting respiratory season, we expect 2023 to return to a "normal" respiratory season
- Labs should deliver solid growth as supply chain issues continue to alleviate and China rebounds
- Currency translation is expected to be about neutral to sales

[1] Growth rates are on a supplemental combined basis.

Summary

Second quarter demonstrated strength of our combined organization with solid financial results driven by strength in our Labs business and Triage

Raised non-respiratory revenue guidance to the high end of our prior guide, while lowering our respiratory guidance to the low end

We have the right strategy, products, and team to enable us to achieve our near-term growth goals and deliver high-single-digit growth over the long term
