Date:	July 13, 2023
Re:	**Q2 2023 Letter to Partners**

Dear Partners:

For the quarter ended June 30, 2023, a total of $10.6 million was added to the various funds by new and existing partners. The additions on a per fund basis are:

PIF2: $2.8 million	PIF3: $4.3 million	PIF4: $3.5 million

PIF2 is the oldest fund and has been closed to new investors for many years. SEC rules limit PIF2 to a total of 100 partners and those slots are currently filled. Until we have full redemptions, PIF2 is closed to new investors.

PIF3 is our offshore fund for non-US accredited offshore investors, and U.S. IRAs, foundations, and endowments. The minimum investment to join PIF3 as a new partner is $4 million. PIF3 is closed to new and existing IRAs but continues to be open to US foundations/endowments and foreign investors who are happy to join despite PIF3's concentration today (more on this below). PIF4 is for qualified US investors. The minimum investment to join PIF4 as a new partner is $3.5 million.

For existing investors in any of the funds, the minimum addition to their current investment is $25,000. Here are the deposit slips for PIF2, PIF3 and PIF4. If you are interested in or would like more information about the October 1, 2023 opening, please contact me at mp@pabraifunds.com or Kimberly Engleman at ke@pabraifunds.com.

The updated performance numbers on all the funds are:

THE PABRAI INVESTMENT FUND II, LP (US Qualified Investors) Performance Summary:

	S&P 500	PIF2 (net to investors)
10/1/00-6/30/01	-14.0%	17.4%
7/1/01-6/30/02	-18.0%	35.3%
7/1/02-6/30/03	0.3%	34.2%
7/1/03-6/30/04	19.1%	38.7%

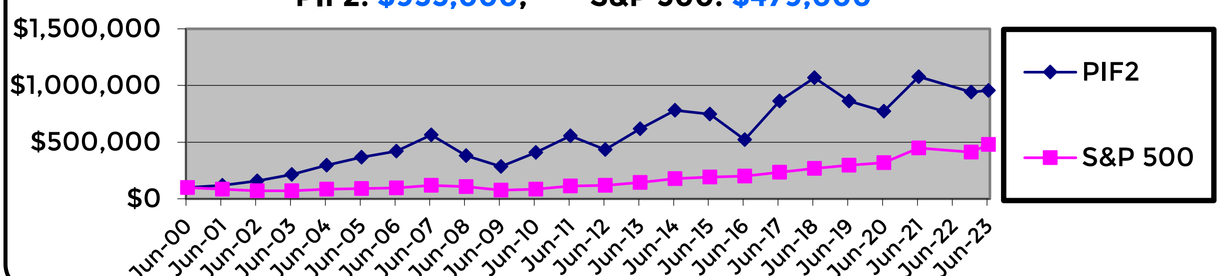
Comparison of changes in value of $100,000 invested in PIF2 vs. the Indices.
PIF2: $955,000; S&P 500: $479,000



PIF2 Investors:
A $100,000 investment in PIFI at inception on July 1, 1999 and rolled over into PIF2 on 12/31/02 ($197,900) was worth $1,338,000 as of June 30, 2023 (net to investors). This equates to an annualized return of 11.4% since inception – after all fees and expenses. An investment of $100,000 in the S&P 500 on July 1, 1999 was worth $509,000 on June 30, 2023– an annualized gain of 7.0%. The S&P 500 gains include reinvested dividends. In the graph above, the start date for PIF2 is shown as June 2000 for readability. The correct start date is October 2000.

PABRAI INVESTMENT FUND 3, LTD (Offshore/IRA Investors) Performance Summary:

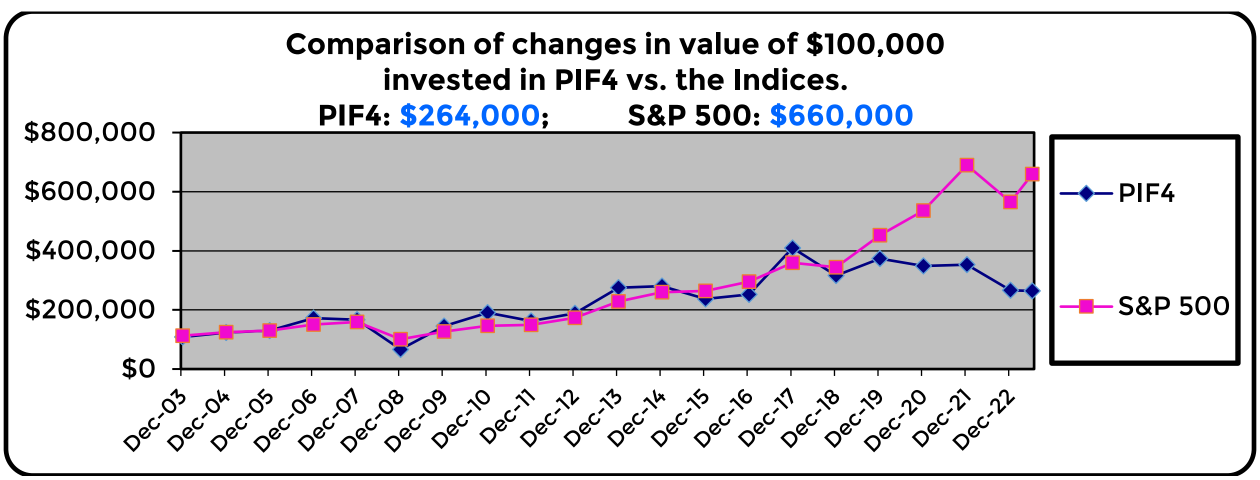
Cumulative	**559.8%**	**164.4%**



PIF4 Investors:
A $100,000 investment in PIF4 at inception on October 1, 2003 was worth $264,000 as of June 30, 2023 (net to investors). This equates to an annualized gain of 5.0% since inception. An investment of $100,000 in the S&P 500 on October 1, 2003 was worth $660,000 on June 21, 2023 – an annualized gain of 10.0%. The S&P 500 gains include reinvested dividends. In the graph above, the start date for PIF4 is shown as Dec 31, 2003 for readability. The correct start date is Oct. 1, 2003.

General Comments

The S&P 500 was up 8.7% for the quarter ended June 30. The three funds were up 7.3%, 9.4% and 4.9%, respectively, for the same period. While my focus is long-term, it is worth noting that all three funds' NAVs are a bit understated at quarter-end due to two unusual occurrences in the quarter:

1. One of our holdings in India, Edelweiss Financial, spun off its wealth management subsidiary during the quarter. The spun-off business, Nuvama, will not be listed for up to another six weeks. The value ascribed to Nuvama by our custodian appears conservative in my opinion. More color on this later.

2. The Turkish markets were closed for the Eid holiday for the last three days of the quarter and thus the quoted prices are a bit stale and are as of Tuesday, June 27. For the first two trading days in July, the Turkish bets in PIF4 were up 7.8% versus their 6/30/23 value on no news. If the quarter ended on July 4, the funds would have been up about 9%, 10.6% and 7.4%, respectively, while the S&P 500 would have been up around 8.6%.

All three funds have beaten the S&P 500 from their respective inceptions through 2017. They've also beaten the index over 1, 3, 5 and 10 years when one looks back from 2017. Our laggard years were 2018-21. Our performance has always been lumpy. We have had several periods of multi-year underperformance in the past 24 years. The best that I can tell is that the funds turned a corner about 15 months ago and are likely to have a nice run for the rest of the decade.

US Portfolio Additions

We have found three good investment ideas in 2023 thus far. And, for a change, two are in the US! We now have more ideas than capital in all three funds and thus appreciate all the recent additions to all three funds. These new additions help diversify the portfolio while adding more tailwinds going forward.

We now have more good investment ideas than capital, but have some constraints in adding more dollars. PIF2, for example, could make good use of another $25+ million of inflows, but it has no available slots to add investors. PIF3 could use another $35+ million, but it too has constraints as it cannot add IRA funds from existing or new investors. It is limited to adding non-US investors. PIF4 is in pretty good shape. It could make use of just another $6 million and has no slot constraints.

It is not a problem if we do not have any inflows in the coming quarters. All three funds own a wonderful array of fine businesses and undervalued assets. If I make no portfolio changes or trades for the next 5-10 years, I think we'll have an exceptional run. So, that is what I am going to try to accomplish: doing nothing!

Edelweiss and the Nuvama Spinoff

We have been investors of Edelweiss Financial in India for five years and own around 8.6% of the business across Pabrai Funds. While our returns from owning Edelweiss over these years have been significantly negative for the funds, I believe it is all set to change in the years ahead.

Edelweiss has been a great incubator of various financial services and insurance businesses over the years. It has created tremendous shareholder value in these businesses except one. They got their head handed to them in their wholesale real estate lending business and it put tremendous stress on their balance sheet. They put their lending business into runoff a few years ago and should be mostly out of it in the next 2-3 years. They have learnt their lesson and the company is highly unlikely to ever engage in balance sheet lending in the future.

Edelweiss spun off their wealth management business, Nuvama, in June 2023. Before the spinoff, Edelweiss owned 44% of Nuvama and after the spinoff they still own 14%. Edelweiss shareholders got 30% of Nuvama ownership distributed to them. Thus, Pabrai Funds now owns about 2.6% of Nuvama.

The custodian ascribed a valuation to Nuvama of $1.14 billion. I believe Nuvama could be worth more than that and we'll get real price discovery when it starts trading in a few weeks. The $1.14 billion valuation was used for the 6/30 NAV. Excluding one-time spinoff expenses, Nuvama had $45 million in net income in the year ended March 31, 2023. Nuvama is growing fast and investing ahead of the curve to fuel that growth.

The $45 million earnings number is after investing heavily in future growth. Earnings are growing at a healthy 20+% a year clip. Wealth management is embryonic in India and is expected to have high growth for decades. Nuvama's earnings may be $100+ million in a few years and it may have a market cap of around $2-3 billion or more by then. We intend to hold on to our Nuvama (and Edelweiss) stake for a long time.

To put all this in context, before the Nuvama spinoff, Edelweiss was sporting a market cap of $765 million. Even at the $1.14 billion Nuvama valuation, the Nuvama stake made up $500 million of Edelweiss' $765 million valuation. Everything else was ascribed a value of just $265 million. Edelweiss owns many world class businesses, each of which is worth a lot more than $265 million.

After the Nuvama spinoff, we added to our Edelweiss position and are now close to the 10% maximum allowed by law. While our Turkish bets get a lot of attention, we own some incredibly undervalued businesses in India and the United States as well. This dog will hunt!

Turkiye Musings

There were much anticipated national elections in Turkiye in May. Most investors had hoped for a change in leadership with more rational monetary policies. Erdogan was, however, re-elected and, surprisingly, has made the monetary policy changes I expected a new leader to make.

Erdogan was a terrific leader from the time he was first elected Prime Minister in 2004 until 2018. Per capita GDP tripled from $3600 in 2004 to over $12,500 a decade later. Mehmet Simsek was the Finance Minister and Deputy Prime Minister through this period and until 2018 when Erdogan wanted interest rates cut. Simsek refused and was summarily fired.

From 2019 till now, Erdogan has repeatedly fired several Finance Ministers and heads of the Central Bank, including his son-in-law. With spiraling inflation, he forced the Central Bank to cut interest rates. The Turkish Lira collapsed, and inflation skyrocketed. Surprisingly, after the May elections, Simsek is back in as Finance Minister! He is widely respected by Western central bankers, and he must have been guaranteed a free hand to even consider coming back.

In another sign of a move toward more pragmatic policies, Erdogan appointed Hafize Gaye Erkan this month as Turkiye's first female Central Bank Governor. Erkan is a Princeton Ph. D., and highly respected. The Turkish Central Bank just hiked its main interest rate from 8.5% to 15% for the first time in four years. I expect several more significant hikes in the near future.

While the country faces many challenges, its debt to GDP ratio is a modest 31%. The United States, for example, is over 100%. This number does understate the real obligation as the Turkish Central Bank has borrowed over $125 billion from domestic banks. These borrowings widely outstrip Turkiye's foreign exchange and gold reserves, but basically the country owes it to itself.

By no means am I an expert in these matters. We have three businesses that we currently partially own in Turkiye. I believe all three are well-insulated from the sky-high inflation and other monetary challenges the country faces. Two of the three derive most of their cash flows from their foreign subsidiaries. All three are wide-moat businesses with exceptional owners and managers.

Our Turkiye Portfolio

When we first started buying **Reysas Logistics** in 2019, the market cap was under $20 million. The Turkish Lika has lost more than 80% of its value since we invested. It did not matter. Reysas Logistics' market cap is now $420 million, and we own 1/3 of the business. Its primary asset is a 62% stake in 80 highly desirable warehouses that are 99% leased to world class tenants like Dupont, Amazon, Ikea, Carrefour etc. All the leases are inflation-indexed and some are dollar/euro leases. Reysas' intrinsic value is well over a billion dollars and rising. We expect to stay invested in Reysas for a long time.

TAV Airports has a large footprint of airports outside Turkiye, including its crown jewel Almaty Airport. All its Turkish and non-Turkish airports and businesses have contracted revenues in euros/dollars while many of its expenses (payroll) are in Lira. The currency devaluations and inflation have been a tailwind for TAV.

Our third Turkish bet is undisclosed but will eventually be revealed and listed in our audit reports. Well over 60% of its revenues are from businesses and assets that it owns outside Turkiye. These are extremely valuable global franchises. They have market leading brands and dominance within Turkiye as well.

The risk-reward equation of our Turkiye, India and US bets is heavily in our favor. Most of my net worth is invested in Pabrai Funds and I cannot think of any other way I'd rather have my assets invested.

Extreme Concentration in the Various Pabrai Funds

While Pabrai Funds does not allocate more than 10% of assets to any single position at cost, periodically the funds get very concentrated. Here are the largest holdings in each fund at this time:

Pabrai Investment Fund 2	
Reysas Logistics & REIT (Turkiye)	27%
Rain Industries (India)	16%
TAV Airports (Turkiye)	12%
Undisclosed (US)	11%
Top 4 positions	**67%**

Pabrai Investment Fund 3	
Reysas Logistics & REIT (Turkiye)	43%
TAV Airports (Turkiye)	13%
Undisclosed (US)	10%
Rain Industries (India)	9%
Top 4 positions	**75%**

Pabrai Investment Fund 4	
TAV Airports (Turkiye)	16%
Sunteck Realty (India)	15%
Undisclosed (US)	12%
Edelweiss Financial (India)	11%
Top 4 positions	**53%**

Please refer to my commentary on the nature of these concentrated bets in the Q422 Letter to Partners (pages 8-10). If you disagree with the degree of concentration, you should exit at the next exit window. It is important that the positives and negatives of these concentrated bets are well understood by you.

2022 Annual Report

The 2022 Annual Report of Pabrai Funds is on the website for your perusal.

Alignment of Interests

My immediate family has a stake of 175,859 units of PIF2 and 227,121 units of PIF4. The administrative team at Pabrai Funds and I own 42,917 units of PIF4 and 11,773 units of PIF3 in various retirement accounts. In addition, The Dakshana Foundation owns 102,364 units of PIF3. The aggregate stake of the Pabrai family, the Pabrai Funds team and The Dakshana Foundation in Pabrai Funds is worth approximately $32 million.

Pabrai Funds charges no management fee, just performance fees – which are ¼ of the returns over 6% annualized (subject to high-water marks). I only get paid when you make money. When you win, I win. I am very bullish on the long-term future of Pabrai Funds – as demonstrated by my being the second largest investor in the funds. No fees were earned in Q2 2023.

I have an approximately $4.7 million investment in Dhandho Holdings. Additionally, The Dakshana Foundation has an approximately $0.5 million investment in Dhandho Holdings. Besides this, I have no other meaningful interests in any other mutual funds, hedge funds or private equity funds. Our interests are completely aligned.

Online Portal for Investor Statements

Your 6/30 investor statements have been uploaded to your investor portal. If you have trouble accessing your investor portal or need to reset your password, please contact Kimberly Engleman at ke@pabraifunds.com for assistance.

Annual Redemption Date Only for Retirement Account RMDs

We have an annual redemption date on September 30th only for retirement accounts invested in the PIFs in which the beneficial owner is 72 years or older. The purpose of this is to allow folks who are 72 years or older and who are invested in the PIFs with retirement assets to meet their annual Required Minimum Distributions (RMDs). These investors can also still redeem whatever they wish on 12/31 with 60 days' advance notice. Effective January 1, 2023, the age to start taking RMDs from your retirement accounts increased from 72 to 73. The minimum age for our RMD redemption window will increase to 73 beginning next year.

We recommend that these folks make their first redemption request with the next 5 years in mind and redeem 20% of their balance. They can then keep those retirement funds in cash or a low-cost index fund with daily liquidity (e.g., an S&P 500 index fund with their broker/custodian) and tap that annually for RMDs as needed. Then, each year, they can redeem an additional 3.5% - 7% to make sure that they have sufficient funds for RMDs at all times.

We need to receive the redemption request with 60 days' advance notice (i.e., by August 1st). Please nudge Kimberly Engleman at ke@pabraifunds.com if this is of interest and she will provide you with a redemption request form.

Office Phone Number

We switched off our Irvine phone number for good on May 1st. Please update your address books to our Austin office number: +1.512.999.7110.

Chai With Pabrai Blog

Please check out my blog www.ChaiWithPabrai.com which I try to keep updated. With zero travel due to Covid, I have reduced my decline rate on speaking to students. I try to do 1-2 Zoom sessions with students every month. This is about the max. of what I am interested in doing. Here are some recent additions to the blog:

Presentation and Q&A at the University of Nebraska, Omaha on May 5, 2023

I very much enjoyed my session with students at the University of Nebraska on "Circle the wagons" investing approach.

Presentation and Q&A at the University of Nebraska, Omaha on May 5, 2023

Talk and Q&A session with students at the University of Texas on February 28, 2023

I very much enjoyed my session with students at the University of Texas on Warren Buffett's 2022 Shareholder letter.

Talk and Q&A session with students at the University of Texas on February 28, 2023

Suggestion Box

We are always interested in hearing how we can better serve you. Please feel free to email me any suggestions/feedback you may have at mp@pabraifunds.com

2023 Annual Meeting

There will be two annual meetings held sequentially in 2023: an in-person meeting in Austin, Texas and a virtual meeting. These meetings will cover Pabrai Funds, Dhandho Holdings and Dhandho Funds.

The **In-Person Austin** meeting is scheduled to be held on **Saturday, September 9th, 2023** at 4:00 PM Central Time at:

St. Edwards University
John Brooks Williams Science Center South
3001 South Congress, Austin, Texas 78704-6489 Tel: +1 512-448-8400

St. Edwards has a beautiful campus lined with 100-year-old Texas live oak trees and is only 10 minutes from downtown Austin. It is also a 10-minute drive from Austin-Bergstrom International Airport (AUS).

There are many hotels and Airbnbs in downtown Austin, and cheaper options 10-15 miles out.

Agenda for the Austin meeting:

4:00 – 4:30 PM: Meet and Greet
4:30 – 6:30 PM: Presentation and Q&A
6:30 – 7:15 PM: Cocktail Hour

The **Virtual** meeting is scheduled to be held via video conference on **Saturday, September 23rd, 2023** at 2:00 PM Central Time. Confirmed guests will receive instructions via email on how to attend the virtual meeting.

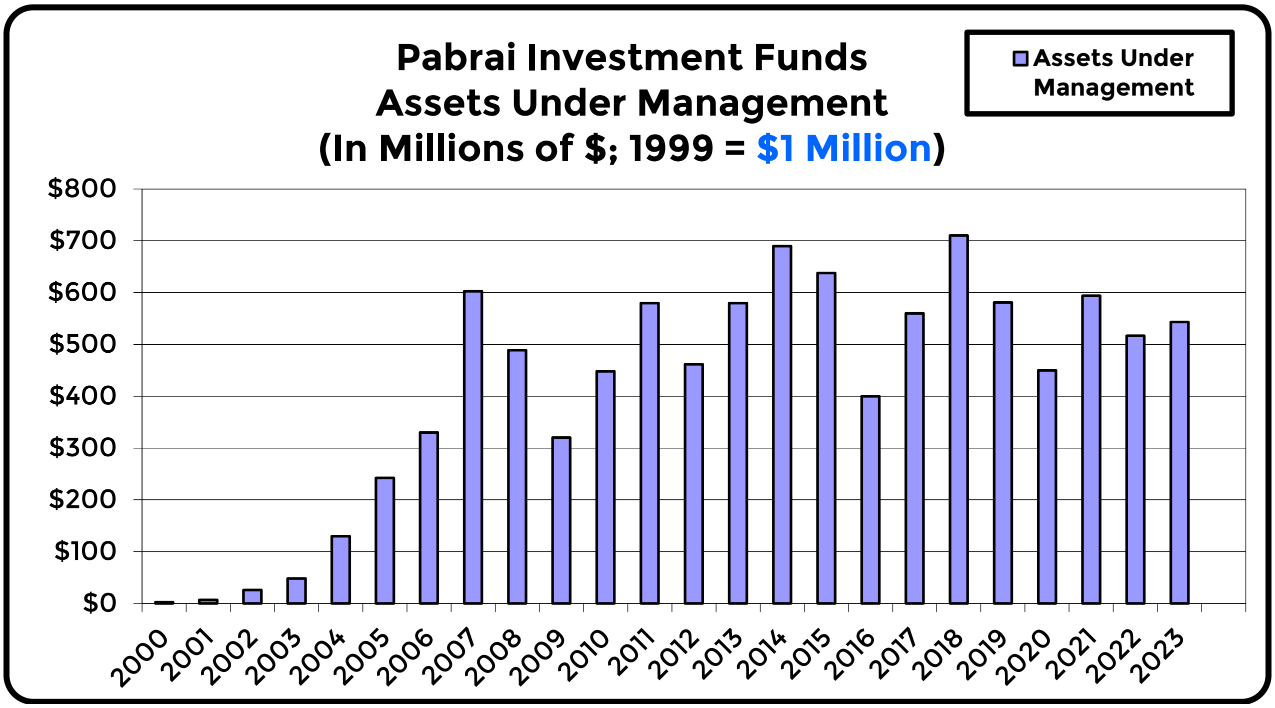
Agenda for the virtual meeting:

2:00 – 4:00 PM Central Time: Presentation and Q&A

The invites went out electronically via email in the first week of July. If you did not receive it, please contact invite@pabraifunds.com. Your significant other and young kids are welcome to attend. As we are a Registered Investment Advisor, the SEC requires that all guests must be "accredited investors," which includes your adult kids (22 years or older). The invitation is non-transferable. I look forward to seeing you in September.

Assets Under Management

There is $543 million in assets across all three funds as of June 30, 2023.



Thanks for your continued interest, referrals and support. Feel free to call me at +1512.999.7110 or email me at mp@pabraifunds.com with any queries or comments.

Warmly,

Mohnish Pabrai

Note: The assets under management in the above graph are as of June 30 for all annual periods. Various indices are included throughout this letter for reference. Reference to an index or benchmark does not imply that the strategy will achieve returns, experience volatility, or have other results similar to the index. As an example, the Funds may invest in foreign securities or fixed income instruments; however the indices presented only include U.S. securities. These indices are purely a basket of stocks, and the Funds may invest in securities other than stocks such as bonds, warrants and preferred stocks. The Funds typically hold fewer than 10 positions as compared to 500 in the S&P, 30 in the DJIA, and thousands in the NASDAQ. Therefore, the Funds are significantly more concentrated than the benchmark indices and may experience notably higher volatility and return characteristics from these indices.

Appendix A

PIF2's Performance History (Net to Investors)

No. of Units	Date	PIF2 NAV
110,000	10/01/2000	$10.00

Past performance is not indicative of future results. Returns are presented net of all fees and expenses, include the reinvestment of income and are calculated using a simple rate of return. The securities discussed do not represent all securities recommended for the Funds. It is also not a recommendation to buy or sell and one should not presume they will be profitable.

Please be aware that our past newsletters may discuss specific securities that have performed well without necessarily addressing those that have underperformed within our Fund(s). Readers should not infer that all investment decisions within the Funds were profitable.
