QuidelOrtho 2023 Third Quarter 2023 Financial Results

QuidelOrtho™

Forward-Looking Statements

Forward-Looking Statements: This presentation of QuidelOrtho Corporation ("QuidelOrtho" or the "Company") contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include any statement contained herein that is not strictly historical, including, but not limited to, QuidelOrtho's commercial, regulatory and other strategic goals, financial guidance and other future financial and operating results, and future plans, objectives, strategies, expectations and intentions. Without limiting the foregoing, the words "may," "will," "would," "should," "might," "expect," "anticipate," "believe," "estimate," "plan," "intend," "goal," "project," "strategy," "future," "continue" or similar words, expressions or the negative of such terms or other comparable terminology are intended to identify forward-looking statements. Such statements are based on the beliefs and expectations of QuidelOrtho's management as of today and are subject to significant known and unknown risks and uncertainties. Actual results or outcomes may differ significantly from those set forth or implied in the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth or implied in the forward-looking statements: the challenges and costs of integrating, restructuring and achieving anticipated synergies as a result of the business combination (the "Combinations") of Quidel Corporation ("Quidel") and Ortho Clinical Diagnostics Holdings plc ("Ortho"); supply chain, production, logistics, distribution and labor disruptions and challenges; and other macroeconomic, geopolitical, market, business, competitive and/or regulatory factors affecting the business of QuidelOrtho generally, including those discussed under Part I, Item 1A, "Risk Factors" of QuidelOrtho's Annual Report on Form 10-K for the fiscal year ended January 1, 2023 and subsequent reports filed with the Securities and Exchange Commission (the "Commission"). You should not rely on forward-looking statements as predictions of future events because these statements are based on assumptions that may not come true and are speculative by their nature. All forward-looking statements are based on information currently available to QuidelOrtho and speak only as of the date hereof. QuidelOrtho undertakes no obligation to update any of the forward-looking information or time-sensitive information included in this presentation, whether as a result of new information, future events, changed expectations or otherwise, except as required by law.

Supplemental Combined Financial Measures and Non-GAAP Financial Measures

Supplemental Combined Financial Measures: This presentation contains unaudited supplemental combined financial information (“Supplemental Combined Information”) that gives effect to the Combinations as if Quidel and Ortho had been combined for the applicable periods. Certain Supplemental Combined Information presented is based on the historical financial statements of Quidel and Ortho with reclassification adjustments only and do not include all of the pro forma adjustments required under Regulation S-X Article 11 or Accounting Standards Codification 805, Business Combinations (“ASC 805”). The Supplemental Combined Information is provided for illustrative purposes only, may be updated in the future, and is not necessarily, and should not be assumed to be, indicative of the Company’s expected results of operations or financial position that would have been achieved had the Combinations been completed as of the dates indicated or that may be achieved in any future period. The Supplemental Combined Information should be considered supplemental to, and not as a substitute for, pro forma financial information prepared in accordance with Regulation S-X Article 11 or ASC 805 and should be read in conjunction with the information contained in the sections entitled “The Combinations,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations of Ortho” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations of Quidel” in QuidelOrtho’s joint proxy statement/prospectus (the “Joint Proxy Statement/Prospectus”) filed with the Commission on April 11, 2022 and the historical consolidated financial statements and related notes appearing elsewhere in, or incorporated into, the Joint Proxy Statement/Prospectus, and the Company’s subsequent reports filed with the Commission. The Company’s actual results of operations and financial position will differ, potentially significantly, from the Supplemental Combined Information reflected in this presentation as a result of the methodology used to prepare the Supplemental Combined Information as well as a variety of factors, including but not limited to the effect of certain expected financial benefits of the Combinations (such as revenue and cost synergies), the anticipated costs to achieve these benefits (including the cost of integration activities), tax impacts, and changes in operating results following the date of this presentation.

Non-GAAP Financial Measures: This presentation contains financial measures, including but not limited to “constant currency” revenue changes, “adjusted net income,” “adjusted diluted EPS,” “adjusted EBITDA,” “adjusted EBITDA margin,” "adjusted free cash flow," “supplemental combined adjusted net income,” “supplemental combined adjusted diluted EPS,” “supplemental combined adjusted EBITDA” and “supplemental combined revenues by region, business unit and category,” which are considered non-GAAP financial measures under applicable rules and regulations of the Commission. These non-GAAP financial measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). “Adjusted net income,” "adjusted diluted EPS," “adjusted EBITDA,” “adjusted EBITDA margin” and "adjusted free cash flow" eliminate impacts of certain non-cash, unusual or other items that the Company does not consider indicative of its ongoing operating performance, and the Company generally uses these non-GAAP financial measures to facilitate management’s financial and operational decision-making, including evaluation of the Company’s historical operating results and comparison to competitors’ operating results. The Company believes that “supplemental combined adjusted net income,” “supplemental combined adjusted diluted EPS,” “supplemental combined adjusted EBITDA” and “supplemental combined revenues by region, business unit and category” provide helpful Supplemental Combined Information to assist management and investors in evaluating the Company’s adjusted operating results as if Quidel and Ortho had been combined for the applicable periods. The Company’s definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP financial measures reflect an additional way of viewing aspects of the Company’s operations that, when viewed with GAAP results and the reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the Company’s business. Because non-GAAP financial measures exclude the effect of items that will increase or decrease the Company’s reported results of operations, management strongly encourages investors to review the Company’s consolidated financial statements and reports filed with the Commission in their entirety. Reconciliations of the non-GAAP financial measures, including the non-GAAP Supplemental Combined Information, to the most directly comparable GAAP financial measures are included in the Appendix at the end of this presentation.

Q3 2023 Highlights[1]

- Delivered strong performance in respiratory and core businesses, including the Labs business which grew 3%, excluding respiratory
- Non-respiratory revenue grew 2% to $559 million y/y
- Respiratory revenue more than doubled sequentially to $185 million, driven by earlier-than-expected demand for COVID-19, flu, strep and RSV
- Excluding COVID-19 revenue, we had growth across all geographies, including continued strength in China

A Clear Path to Meaningful Growth Over the Next Few Years

Three near-term initiatives that we are acutely focused on are Vitros, Sofia, and Savanna

Vitros® System

Installed base is fueled by the placement of integrated analyzers

Small to Medium-sized Hospitals

- Integrated installed base up 12% and automation up 14% - leading indicators of pull-through of higher growth, higher margin immunoassays
- Continue to expect normalized instrument inventory levels in Q4
- Strong order book and actively winning contracts.

Sofia® Platform

Sophisticated yet easy-to-use Point-of-Care device for multiple types of testing

Hospitals, POC, UC, EDs

- Cumulative installed base steady at 88K instruments
- Non-COVID outsales per instrument grew 22% y/y (TTM)
- Only 5% of U.S. customers are running for only COVID-19

Savanna® MDx

Revolutionary new molecular platform utilizing real-time PCR and syndromic panels

Hospitals, POC, UC, EDs

- FDA submissions in review, including 510(k)s for the instrument and both RVP4 and HSV/VZV lesion panels
- Expect Savanna instrument clearance by the end of 2023. We have Savanna instrument inventory in preparation for U.S. commercial launch.

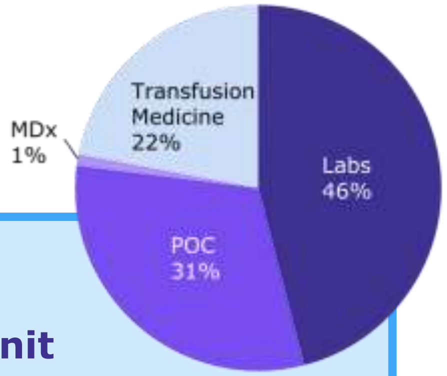
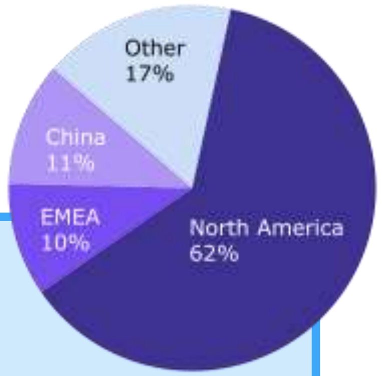
Q3 2023 Revenue Results[1]



Revenue by Business Unit

POC (14)% [(1)% non-respiratory]
Labs[2] 2% [+3% non-respiratory]
TM 0% [0% non-respiratory]
MDx (64)% [(7)% non-respiratory]

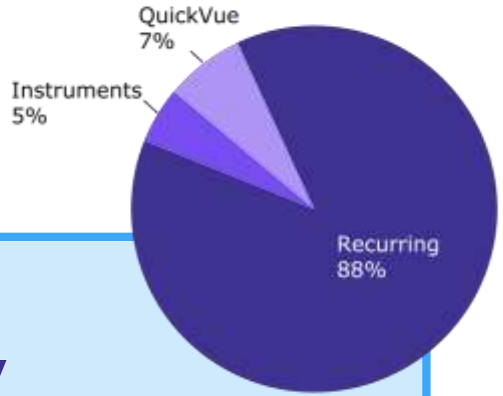
- **Point of Care (POC)** was driven by Sofia (SARS, Flu, Combo) and QuickVue in NA. Y/y decline was due to anticipated decline in COVID-19 revenue from the prior year period
- **Labs** growth was driven by returning to normalized levels of instruments, and strength in Clinical Chemistry
- **Transfusion Medicine (TM)** strength in Immunohematology was offset by Donor Screening
- **Molecular Diagnostics (MDx)** declined y/y, primarily due to expected declines in COVID-19-related Lyra revenue



Revenue by Geography

North America (10)% [(1)% non-respiratory]
EMEA (2)% [+3% non-respiratory]
China +6% [+6% non-respiratory]
Other regions[3] +7% [+7% non-respiratory]

- **North America** driven by respiratory, Sofia (COVID-19, Flu, Combo)
- **EMEA** non-respiratory revenue increased 3% with strong performance in Transfusion Medicine
- **China** growth in Labs, as well as QuickVue, Sofia and Triage



Revenue by Category

Recurring +6% [+1% non-respiratory]
QuickVue (62)% [(26)% non-respiratory]
Instrument +28%

- **Recurring revenue** reagents, service and other consumables grew 1%
- **QuickVue revenue** declined y/y due to anticipated decline in COVID-19 revenue from the prior year period
- **Instrument revenue** increased by 28% y/y

2. Labs includes legacy Ortho Clinical Labs and non-core revenue, as well as legacy Quidel Specialized Diagnostic Solutions business.
3. Other regions include Latin America, Japan and other Asia-Pacific markets.

Operating Results Summary[1]

Q3 2023 Highlights

- Adjusted gross profit margin of 50.5% was up 490 bps sequentially. The y/y decline was due to both strong instrument revenue and the anticipated decline in COVID-19 -related revenue in the prior year period.
- Adjusted EBITDA declined to $169M, representing an adjusted EBITDA margin of 23%, slightly above our expectations due to the strong revenue

Maintaining FY 2023 Financial Guidance[1]

Financial Outlook	FY 2023 As of Q3'23 Reporting
Non-respiratory Revenue *Constant currency growth*	\$2.27B – \$2.31B *+5% – 6.5%*
Respiratory Revenue	\$610M – \$775M
Total Revenue *Constant currency growth*	\$2.88B – \$3.08B *Down 29% - 24%*
Adjusted EBITDA *Margin*	\$800M – \$830M *26.9% – 27.7%*
Adjusted Diluted EPS	\$4.85 – \$5.30

Additional Assumptions

- Expect the impact of foreign currency exchange to be about neutral for the full year, with higher impact on non-respiratory revenue
- Net interest is expected to be in the range of \$145 million to \$150 million
- Expect adjusted free cash flow to be approximately 50%-60% of adjusted EBITDA, as we appropriately invest in manufacturing
- Expect weighted average share count of 67.3 million

[1] Growth rates are on a supplemental combined basis.
