QuidelOrtho™

Forward-Looking Statements

Forward-Looking Statements: This presentation of QuidelOrtho Corporation ("QuidelOrtho" or the "Company") contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include any statements contained herein that are not strictly historical, including, but not limited to, the benefits and results of the business combination (the "Combinations") of Quidel Corporation ("Quidel") and Ortho Clinical Diagnostics Holdings plc ("Ortho") and integration of the businesses of Quidel and Ortho, including QuidelOrtho's execution of cost and revenue synergies, and QuidelOrtho's commercial, integration and other strategic goals, future financial and operating results, and future plans, objectives, strategies, expectations and intentions. These statements in this presentation may be identified by words such as "may," "will," "would," "should," "might," "expect," "anticipate," "believe," "estimate," "plan," "intend," "goal," "project," "strategy," "future," "continue" or similar words, expressions or the negative of such terms or other comparable terminology. Such statements are based on the beliefs and expectations of QuidelOrtho's management as of today and are subject to significant known and unknown risks and uncertainties. Actual results or outcomes may differ significantly from those set forth or implied in the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth or implied in the forward-looking statements: the challenges and costs of integrating, restructuring and achieving anticipated synergies as a result of the Combinations; the ability to retain key employees; and other economic, business, competitive and/or regulatory factors affecting the business of QuidelOrtho generally. Additional risks and factors are identified under "Risk Factors" in QuidelOrtho's Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "Commission") on February 23, 2023 and subsequent reports filed with the Commission. You should not rely on forward-looking statements as predictions of future events because these statements are based on assumptions that may not come true and are speculative by their nature. QuidelOrtho undertakes no obligation to update any of the forward-looking information or time-sensitive information included in this presentation, whether as a result of new information, future events, changed expectations or otherwise, except as required by law. All forward-looking statements are based on information currently available to QuidelOrtho and speak only as of the date hereof.

Supplemental Combined Financial Measures and Non-GAAP Financial Measures

Supplemental Combined Financial Measures: This presentation contains unaudited supplemental combined financial information ("Supplemental Combined Information") that gives effect to the Combinations as if Quidel and Ortho had been combined for the applicable periods. Certain Supplemental Combined Information presented is based on the historical financial statements of Quidel and Ortho with reclassification adjustments only and do not include all of the pro forma adjustments required under Regulation S-X Article 11 or Accounting Standards Codification 805, Business Combinations ("ASC 805"). The Supplemental Combined Information is provided for illustrative purposes only, may be updated in the future, and is not necessarily, and should not be assumed to be, indicative of the Company's expected results of operations or financial position that would have been achieved had the Combinations been completed as of the dates indicated or that may be achieved in any future period. The Supplemental Combined Information should be considered supplemental to, and not as a substitute for, pro forma financial information prepared in accordance with Regulation S-X Article 11 or ASC 805 and should be read in conjunction with the information contained in the sections entitled "The Combinations," "Management's Discussion and Analysis of Financial Condition and Results of Operations of Ortho" and "Management's Discussion and Analysis of Financial Condition and Results of Operations of Quidel" in QuidelOrtho's joint proxy statement/prospectus (the "Joint Proxy Statement/Prospectus") filed with the Commission on April 11, 2022 and the historical consolidated financial statements and related notes appearing elsewhere in, or incorporated into, the Joint Proxy Statement/Prospectus, and the Company's subsequent reports filed with the Commission. The Company's actual results of operations and financial position will differ, potentially significantly, from the Supplemental Combined Information reflected in this presentation as a result of the methodology used to prepare the Supplemental Combined Information as well as a variety of factors, including but not limited to the effect of certain expected financial benefits of the Combinations (such as revenue and cost synergies), the anticipated costs to achieve these benefits (including the cost of integration activities), tax impacts, and changes in operating results following the date of this presentation.

Non-GAAP Financial Measures: This presentation contains financial measures, including but not limited to "constant currency" revenue changes, "adjusted net income," "adjusted diluted EPS," "adjusted EBITDA," "adjusted EBITDA margin," "supplemental combined adjusted net income," "supplemental combined adjusted diluted EPS," "supplemental combined adjusted EBITDA" and "supplemental combined adjusted EBITDA margin," which are considered non-GAAP financial measures under applicable rules and regulations of the Commission. These non-GAAP financial measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). "Adjusted net income," "adjusted EBITDA" and "adjusted diluted EPS" eliminate impacts of certain non-cash, unusual or other items that the Company does not consider indicative of its ongoing operating performance, and the Company generally uses these non-GAAP financial measures to facilitate management's financial and operational decision-making, including evaluation of the Company's historical operating results and comparison to competitors' operating results. The Company believes that "supplemental combined adjusted net income," "supplemental combined adjusted diluted EPS," "supplemental combined adjusted EBITDA" and "supplemental combined adjusted EBITDA margin" provide helpful Supplemental Combined Information to assist management and investors in evaluating the Company's adjusted operating results as if Quidel and Ortho had been combined for the applicable periods. The Company's definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with GAAP results and the reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the Company's business. Because non-GAAP financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, management strongly encourages investors to review the Company's consolidated financial statements and reports filed with the Commission in their entirety. Reconciliations of the non-GAAP financial measures, including the non-GAAP Supplemental Combined Information, to the most directly comparable GAAP financial measures are included in the Appendix at the end of this presentation.

Key Messages

- **Strong Business in Large and Growing Markets:** We are an in vitro diagnostics leader with growth opportunities in our Point of Care, Molecular Diagnostics, Labs and Transfusion Medicine businesses
- **Executing on Integration Ahead of Expectations:** Integration is going smoothly, the two organizations are meshing well and cost synergies are ahead of target
- **Multiple Growth Drivers:** We have multiple revenue drivers that are differentiated and in attractive growth segments of the diagnostics market
- **Strong Financial Profile:** Respiratory revenue has been de-risked, we have a low-leverage balance sheet and strong outlook for revenue, margins, EPS and cash flow
- **Experienced Management Team:** Highly experienced management with proven track records of success to accelerate growth and drive innovation

QuidelOrtho: The Largest Pure-Play Diagnostics Company

Broad portfolio spanning the diagnostics continuum from Labs, TM, and MDx to POC

customers in **130+** Countries and Territories	more than **330** Products across instruments and assays	approximately **$3.0B** Total Revenue[1]	approximately **28%** Adjusted EBITDA Margin[1]
approximately **7K** Teammates Including >2,800 Commercial & Service	**$48B** Total Addressable Market[2]	more than **120K** Instrument Installed Base	more than **100%** Target Adjusted FCF Conversion[3]

1. Midpoint of full year 2023 total revenue and adjusted EBITDA margin guidance as of May 3, 2023
2. 2021 market sizes excluding COVID-19 revenue; Sourced from 2022 IQVIA Market Book
3. Adjusted Net Income to Adjusted FCF conversion estimate

Large and Growing Markets[1]

	Point-of-Care	Clinical Chemistry	Immunoassay (Central Lab)	Molecular Diagnostics	Transfusion Medicine
Total Addressable Market[1]	$8.1B	$9.0B	$19.0B	$9.3B	$2.3B
Steady State Growth	6-8%	3-5%	6-8%	8-10%	2-4%
Expected Drivers	• Expanded access • Decentralization & Consumerization • Innovations in performance and menu	• Growing appreciation for value of routine Dx • Rise of preventative care, wellness screening • Aging population	• Menu expansion • Adoption of high-value tests (e.g., PCT, AMH) • Installed base upgrades	• Demand for gold-standard sensitivity • Ubiquitous respiratory panel adoption • Rise of syndromic testing	• Expanded access • Proliferation of advanced surgeries requiring T&S • Accelerated plasma donations and novel applications
Estimated Mix of Business	25-30%	20-25%	20-25%	5-10%	20-25%

~$48B Total Addressable Market Delivers 5-7% Steady-State Growth

1. 2021 market sizes excluding COVID-19 revenue; Sourced from 2022 IQVIA Market Book & internal analysis

The convergence of several healthcare trends is expected to create multiple opportunities for QDEL growth over the next decade

Mega Trends	IVD Trends	Customer Trends[1]
• Aging populations • Increase in chronic diseases • Gaps in care equity • Patient awareness and empowerment • Increasing cost of care • Integration of AI • Precision medicine	• Miniaturization & Consumerization • Sensitivity improvements • Cost reduction (scale still matters) • Integration of AI & ML • Advancements in proteomics and liquid biopsy • Novel markers • New care modalities (asynchronistic and remote monitoring) • Supply chain disruptions	• Declining supply of skilled labor and burnout • Investments in remote care infrastructure and data management • Value chain consolidation (i.e., payers and providers) • Growing localization efforts

QuidelOrtho™

Positioned to take advantage of market trends and expand position

- **Become IVD company of choice**
- **Drive development of patient–centric diagnostics**
- **Access to novel markers and technology to improve CDM[2]**
- **Maintain favorable scale and cost profiles**
- **Add technology depth and breadth via strategic M&A**

1. Customer here refers to the multiple stakeholders of diagnostics and related information
2. CDM - Chronic Disease Management

QuidelOrtho is Poised to Meet The Challenges of an Evolving Dx Landscape

Internal Analysis - Corporate Strategy & Insights

A Clear Path to Meaningful Growth over the Next Few Years

Three near-term initiatives that we are acutely focused on are Vitros, Sofia, and Savanna

Vitros® System

Installed base is fueled by the placement of integrated analyzers

Small to Medium-sized Hospitals

- Pulls through higher growth, higher margin immunoassays, alongside our historical strength in clinical chemistry
- Planned refresh of our Vitros systems, introduction of new automation and informatics, and launch of 20-25 new or refreshed assays
- Working down open orders that peaked at ~650 units in 4Q22 is expected to add about 2% to total growth

Sofia® Platform

Sophisticated yet easy-to-use Point-of-Care device for multiple types of testing

Hospitals, POC, UC, EDs

- Revenue pull-through opportunity created by the expanded 87K cumulative placements (up 45K or >100% since 4Q19)
- R&D efforts underway that expand single and combination assay menu options, including gastrointestinal, and toxicology assays
- Opportunity for expansion into retail and at-home markets

Savanna® MDx

Revolutionary new molecular platform utilizing real-time PCR and syndromic panels

Hospitals, POC, UC, EDs

- Offers speed, simplicity and flexibility, making it suitable for use in multiple customer environments
- Currently available throughout Europe with plans to commercialize worldwide upon additional regulatory clearances
- Initial menu includes RVP4, followed by HSV/VZV/syphilis, RVP11, STI, two GI panels (Bacterial/Viral and Parasites), Pharyngitis, and Vaginitis

Innovating at the Speed of Light
New Products Driving Growth Trajectory

Labs

POC

TM

MDx

Near-Term

Refresh VITROS Systems & Software; Launch New Automation & Informatics

Secure 510K Clearance for COVID-19 and Combo assays

Drive OUS TriageTrue hsTnI[1] penetration and assay pull-through

New and improved assays and reagents for global automated platforms

Savanna US launch with RVP4 & HSV/VZV

Other panel global launches

Mid-Term

IA Menu Expansion Including Novel and Specialty Markers: 20-25 New/Refreshed Assays

Sofia menu expansion into GI

Expand and Grow Cardiac Business With U.S. Triage Launches

Grow suite of workflow and decision tools to enhance menu and automation

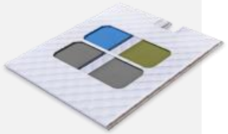
Other panel global launches: STI, RVP11, GI (bacterial/viral), GI (parasites), Pharyngitis, Vaginitis

Long-Term

Low-Cost, Low-Volume Platforms

IA Menu Expansion Including 30-35 New/Refreshed Assays

Scalable Dry Slide and Development of Modular NGT Platform



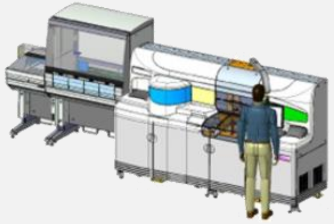
Toxicology on Sofia

Leapfrog/Other Next-Gen Platforms

Integration of chemistry and other assay capabilities to current IA

New Biomarker Opportunities

Next-gen Transfusion Medicine platform



Wide variety of panels in early stages of development, such as meningitis and antimicrobial resistance

1. TriageTrue hsTnI is our high-sensitivity troponin test. Triage PlGF is our placental growth factor test used for pregnant women with suspected pre-eclampsia

Achieving Key Integration Milestones Ahead of Plan

Completed "interim state" integration; now focused on long-term integration activities

	Commercial	People & Culture	Processes & Systems
Completed	▪ Commercial harmonization in North America, most of Western Europe, and China ▪ Shifted Quidel branded products from distributor to direct sales in a handful of markets	▪ Activated enhancements following employee survey ▪ Commission alignment ▪ Cascaded cultural tenants, The QuidelOrtho Way	▪ Launched single instances of workforce management, financial reporting systems, and O365 ▪ Initiated QuidelOrtho industrial design of select products ▪ Rolled out QuidelOrtho Global Quality Policy
In progress	▪ Begun global regulatory submissions in a half dozen new markets ▪ Convert robust pipeline of cross-selling opportunities into revenue synergies	▪ Succession planning ▪ Long-term organization design ▪ Build Learning & Development capabilities	▪ Finalize roadmap for packaging & labeling product rebranding ▪ 10+ cross-functional teams continue to execute against future state integration priorities
Up next	▪ Finalize commercial harmonization across key markets in JPAC, LatAm, and ME	▪ Employee Pulse survey/accountability plans ▪ Employee development programs	▪ Complete and optimize IT systems, optimize digital platforms, unite internal and external websites ▪ Optimize operations, including consolidated supplier agreements and manufacturing efficiency improvements

Actions Implemented In Response to Employee Engagement Survey

Illustrative examples of targeted actions within functions

Decision Making increased communications, improve meeting effectiveness, foster transparency and regular employee/ team interactions

Career Experience with enhanced focus on learning, development and talent moves. Align and reinforce QuidelOrtho purpose

Innovation through process simplification, redesign, automation and continuous improvement

Job Satisfaction with increased effort to celebrate wins and recognize achievements. Promote cross-functional collaboration & communication

Agility reinforced through skill building, hybrid working model and open Manager and Employee communications

Assess progress through an **employee pulse survey in late Q2 with action plans across functions**

Financials

QuidelOrtho™

1Q 2023 Highlights[1]

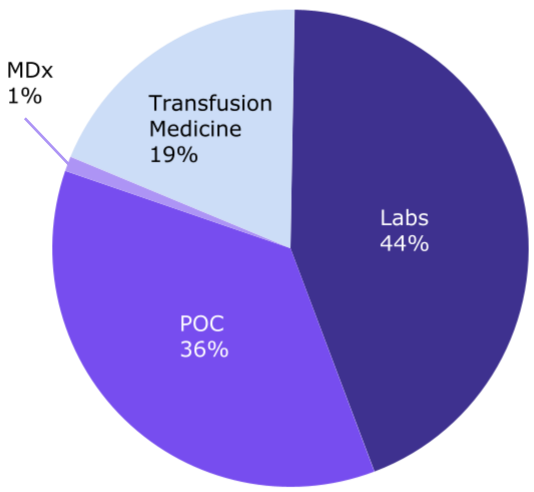
- Sustained momentum from 2022 and exceeded expectations in 1Q 2023
- Non-respiratory revenue up 7% y/y on a supplemental combined basis
- Double-digit growth in Labs business and better-than-expected Point of Care sales
- Growth across all major geographic regions, including strong performance in China

Total Revenue
$846M
(44%) y/y[1]

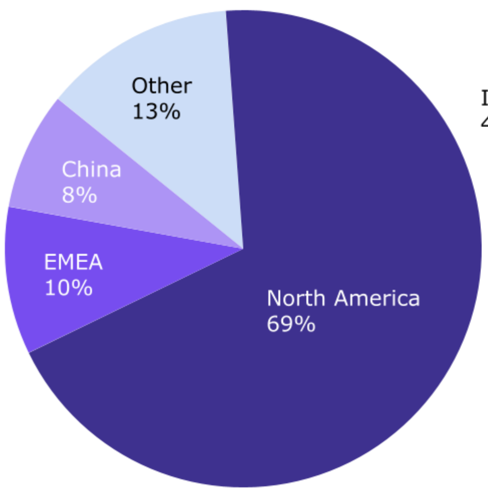
Adjusted EBITDA
$245M[2]
29.0% Margin[1]

Adjusted EPS
$1.80[2]
(78)% y/y[1]

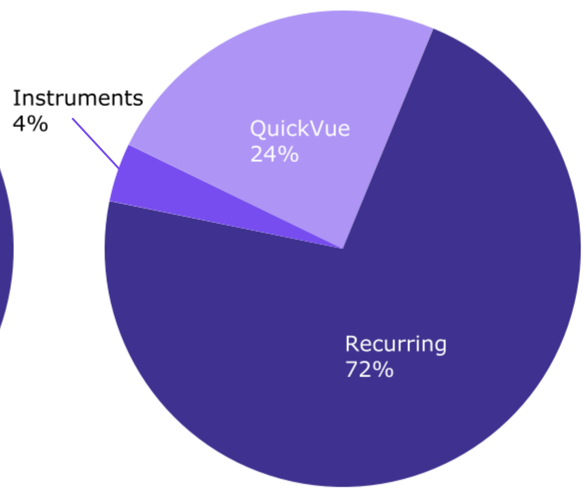
Business Unit



Geography



Category



1. Includes presentation of supplemental combined first quarter 2022 revenues and adjusted operating results as if Quidel and Ortho had been combined for the applicable periods; revenue growth rates are shown on a constant currency basis; the term "constant currency" means we have translated local currency revenues for all reporting periods to U.S. dollars using internally derived currency exchange rates held constant for each period; this additional non-GAAP financial information is not meant to be considered in isolation from or as a substitute for financial information prepared in accordance with GAAP. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric
2. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric

Strong Cash Flow and Balance Sheet Provide Flexibility and Stability

1Q 2023 Cash Flow[1]

$189M
Operating Cash Flow[2]

$157M
Recurring
Free Cash Flow[3]

$66M
Capital Expenditures[2]

1Q 2023 Balance Sheet[1]

$431M
Cash &
Marketable Securities

~2.2x
Net Debt to
Adjusted EBITDA[4]

$2.6B
Total Debt

1. As of and for the three months ended 1Q23
2. 1Q23 GAAP cash flows
3. Management estimate of recurring free cash flow reflecting operating cash flow less capex and $30 million in acquisition, integration and other costs, and $4 million in integration-related capital expenditures
4. Based on management estimates for trailing 12 months supplemental combined EBITDA and 1Q23 net debt

Ahead of Cost Synergy Target

Identified and started executing on more than $90M in cost synergies

Realized Synergies (partial year):

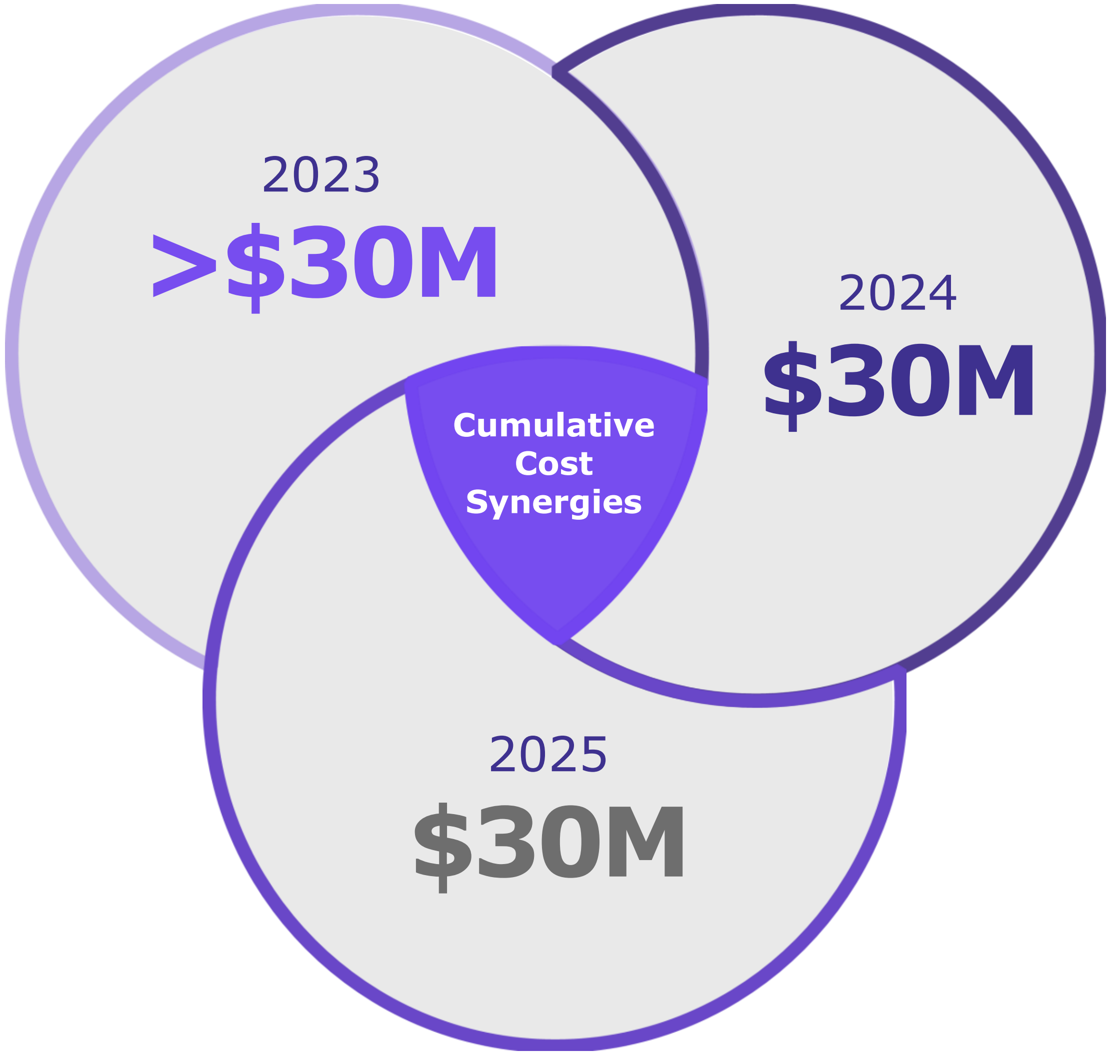
Duplicative costs:
- Board of directors
- Executives (CEO, CFO, GC, R&D)
- Senior management
- Other administrative costs

Competitive bidding of contracts:
- Insurance (D&O, E&O, P&C)
- Audit fees

Improved supplier agreements:
- Consolidated technology agreements
- Indirect sourcing consolidation
- Travel expense contracts
- HR contracts

Future Opportunities:

Commercial and operational optimization:
- Distribution efficiencies
- Improved supplier agreements
- Implementation of best practices



Capital Deployment: Strong Balance Sheet and Cash Generation Give Us the Flexibility to Allocate Funds Toward Several Capital Deployment Priorities

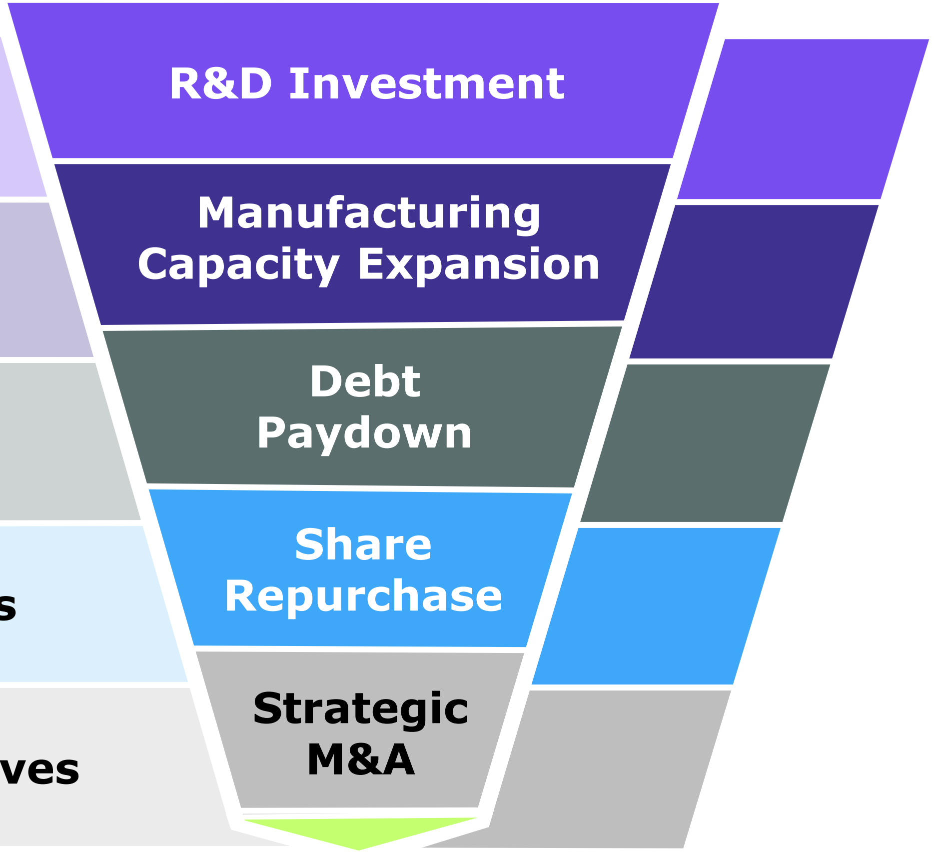
Support menu expansion and development of innovative new instruments

Capital investment to increase manufacturing capacity

Maintain appropriate levels of leverage

Return capital to shareholders through share repurchases

Strategic M&A as the right opportunities present themselves



FY 2023 Guidance[1]

Financial Outlook	FY 2023 As of Q1'23 Reporting	FY 2023 As of Q4'22 Reporting	Change (at Midpoint)
Non-respiratory Revenue *Constant currency growth*	\$2.26B – \$2.31B *+4.5 – 6.5%*	\$2.21 – \$2.25B *+4.0 – 6.0%*	+\$55M
Respiratory Revenue	\$610M – \$875M	\$610M – \$875M	---
Total Revenue *Constant currency growth*	\$2.87B – \$3.18B *Down 29% - 21%*	\$2.8B – \$3.1B *Down 30% – 22%*	+\$55M
Adjusted EBITDA *Margin*	\$815M – \$865M *27.2% – 28.3%*	\$800M – \$850M *27.4% – 28.6%*	+\$15M
Adjusted Diluted EPS	\$5.15 – \$5.70	\$5.00 – \$5.60	+\$0.13

Additional Assumptions

- Respiratory Revenue includes COVID-related revenue of \$300 - \$500 million, flu of \$230 - \$270 million, other of \$80 - \$105 million
- While 2022 included a record-setting respiratory season, we expect 2023 to return to a "normal" respiratory season
- Labs should deliver solid growth as supply chain issues continue to alleviate and China rebounds
- Currency translation is expected to be about neutral to sales

[1] Growth rates are on a supplemental combined basis

Execution of Strategic Priorities Will Position QuidelOrtho for Strong Revenue and Earnings Growth

Assumptions

- High end of range driven by strength in Labs and Savanna
- COVID-19 revenue moderates to the low end of our endemic outlook
- Inflation of 3-5% annual growth
- Foreign exchange rates don't reverse
- Cost synergies of $90M are achieved (below internal targets)
- No capital deployment is assumed beyond the required debt paydown
- Savanna margins remain dilutive in early part of ramp

3-Year Outlook (2023-2025)

6-9%[1]
above market growth

27-29%
2025 adjusted EBITDA margin

DD CAGR
Adjusted EPS 2019-2025[4]

25-50 bps
Adjusted EBITDA Margin Expansion[2]

>100%
Target Adjusted FCF Conversion[3]

$6-7
2025 adjusted EPS[5]

1. Organic revenue CAGR, excluding COVID-19 revenue
2. Adjusted EBITDA margin expansion with COVID-19 revenue at an endemic level
3. Adjusted Net Income to Adjusted FCF conversion estimate
4. Adjusted EPS CAGR without assumed capital deployment beyond required debt paydown
5. 2025 Adjusted EPS Includes $3.00-$3.50 in depreciation expense

Closing

Key Messages

- **Strong Business in Large and Growing Markets:** We are an in vitro diagnostics leader with growth opportunities in our Point of Care, Molecular Diagnostics, Labs and Transfusion Medicine businesses
- **Executing on Integration Ahead of Expectations:** Integration is going smoothly, the two organizations are meshing well and cost synergies are ahead of target
- **Multiple Growth Drivers:** We have multiple revenue drivers that are differentiated and in attractive growth segments of the diagnostics market
- **Strong Financial Profile:** Respiratory revenue has been de-risked, we have a low-leverage balance sheet and strong outlook for revenue, margins, EPS and cash flow
- **Experienced Management Team:** Highly experienced management with proven track records of success to accelerate growth and drive innovation

Three Months Ended					
	April 2, 2023	April 3, 2022	Percent Change	Currency Impact	Constant Currency [(a)]
Respiratory Revenue	$265.6	$947.3	(72.0)%	(0.1)%	(71.9)%
Non-Respiratory Revenue	580.5	555.1	4.6%	(2.2)%	6.8%
Supplemental Combined Total Revenue [(b)]	**$846.1**	**$1,502.4**	**(43.7)%**	**(0.1)%**	**(43.6)%**

(a) The term “constant currency” means we have translated local currency revenues for all reporting periods to U.S. dollars using internally derived currency exchange rates held constant for each period; this additional non-GAAP financial information is not meant to be considered in isolation from or as a substitute for financial information
(b) The three months ended April 2, 2023 includes an approximate $21 million settlement award from a third party related to one of the Company's collaboration agreements

Non-GAAP Reconciliations – Adjusted EBITDA
