

First Quarter 2024

QuidelOrtho William Blair Conference

Joseph Busky, Chief Financial Officer

Forward-Looking Statements

This presentation of QuidelOrtho Corporation ("QuidelOrtho" or the "Company") contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are any statement contained herein that is not strictly historical, including, but not limited to, QuidelOrtho's commercial, regulatory and other strategic goals, future financial condition and operating results, and other future plans, objectives, strategies, expectations and intentions. Without limiting the foregoing, the words "may," "will," "would," "should," "might," "expect," "anticipate," "believe," "estimate," "plan," "intend," "goal," "project," "strategy," "future," "continue" or similar words, expressions or the negative of such terms or other comparable terminology are intended to identify forward-looking statements. Such statements are based on the beliefs and expectations of QuidelOrtho's management as of today and are subject to significant known and unknown risks and uncertainties. Actual results or outcomes may differ significantly from those set forth or implied in the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth or implied in the forward-looking statements: supply chain, production, logistics, distribution and labor disruptions and challenges; the challenges and costs of integrating, restructuring and achieving anticipated synergies as a result of the business combination of Quidel Corporation and Ortho Clinical Diagnostics Holdings plc; and other macroeconomic, geopolitical, market, business, competitive and/or regulatory factors affecting the business of QuidelOrtho generally, including those discussed in QuidelOrtho's Annual Report on Form 10-K for the fiscal year ended December 31, 2023 and subsequent reports filed with the Securities and Exchange Commission (the "Commission"), including under Part I, Item 1A, "Risk Factors" of the Form 10-K. You should not rely on forward-looking statements as predictions of future events because these statements are based on assumptions that may not come true and are speculative by their nature. All forward-looking statements are based on information currently available to QuidelOrtho and speak only as of the date hereof. QuidelOrtho undertakes no obligation to update any of the forward-looking information or time-sensitive information included in this presentation, whether as a result of new information, future events, changed expectations or otherwise, except as required by law.

Non-GAAP Financial Measures

This presentation contains financial measures, including but not limited to "constant currency" revenue and revenue changes, "constant currency, ex-COVID-19" revenue and revenue changes, "ex-COVID-19" revenue, "adjusted diluted EPS," "adjusted EBITDA," "adjusted EBITDA margin" and "adjusted free cash flow," which are considered non-GAAP financial measures under applicable rules and regulations of the Commission. These non-GAAP financial measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). "Constant currency" revenue and revenue changes, "constant currency, ex-COVID-19" revenue and revenue changes, "ex-COVID-19" revenue, "adjusted diluted EPS," "adjusted EBITDA," "adjusted EBITDA margin" and "adjusted free cash flow" eliminate impacts of certain non-cash, unusual or other items that the Company does not consider indicative of its ongoing operating performance, and the Company generally uses these non-GAAP financial measures to facilitate management's financial and operational decision-making, including evaluation of the Company's historical operating results and comparison to competitors' operating results. The Company's definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP financial measures reflect an additional way of viewing aspects of the Company's operations that, when viewed with GAAP results and the reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the Company's business. Because non-GAAP financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, management strongly encourages investors to review the Company's consolidated financial statements and reports filed with the Commission in their entirety. Reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures are included in the Appendix at the end of this presentation.

Near-Term Priorities

Restore Investor Confidence: New CEO focused on improving performance and leveraging broad product portfolio, across the patient care spectrum

Improve Operational Performance: Realize enterprise-based cost savings initiatives (\$100M annualized), resolve remaining product supply constraints, increase free cash flow and reduce debt

Continue Growth in Underpenetrated IA Segments and High Growth OUS Markets: Aspirational goal of mid-to-high single digit sales growth, mid-to-high 20% adjusted EBITDA margins

Accelerate Menu Expansion: High-margin, high-growth menu opportunities in respiratory, sexually transmitted infections, gastro-intestinal, cardiometabolic and women's health testing

Immunoassay Growth Opportunity

- ~\$19B TAM
- 6-8% market growth
- Estimated mix of IA business is ~30%, which is inverted compared to the market

Expected Drivers

- Focus on integrated platforms and automation
- Menu expansion and adoption of high-value tests (PCT, Controls)
- OUS expansion
- Launch of results management software
- Installed-base upgrades

1. Revenue growth rates are shown on a constant currency basis; the term "constant currency" means we have translated local currency revenues for all reporting periods to U.S. dollars using internally derived currency exchange rates held constant for each period; this additional non-GAAP financial information is not meant to be considered in isolation from or as a substitute for financial information prepared in accordance with GAAP. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric. **2.** See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric. **3.** Calculated based on weighted-average shares outstanding - diluted of 67.3 million and 67.1 million for the three months ended March 31, 2024, and April 2, 2023, respectively. See reconciliation of non-GAAP measures included in the Appendix for reconciliation to closest GAAP metric.

Capital Expenditures¹

Balance Sheet as of March 31, 2024

\$79M

Cash & Marketable Securities

~3.8x

Net Debt to Adjusted EBITDA³

\$2.4B

Total Debt

1. For the three months ended March 31, 2024.

2. Management estimate of adjusted free cash flow reflects operating cash flow less capex (excluding investments of \$2 million) and \$29 million in acquisition, integration and other costs, \$20 million in integration-related cloud computing implementation costs and \$3 million of other integration-related capital expenditures.

3. Based on management estimates for trailing 12 months adjusted EBITDA and Q1 2024 net debt.

Capital Priorities

Rebuilding foundation to drive long-term growth and shareholder value

Recalibrating for Long-term Growth

- Menu expansion into attractive categories
- Maximize integration efforts through business enablement tools – ERP consolidation, IT infrastructure

Fortifying the Balance Sheet

- Prudently manage balance sheet, emphasis on reducing debt and driving free cash flow
- Maintain optimal inventory, manufacturing capacity, and supply chain to support customer demand

Driving Long-term Value

- Prioritize future R&D investments on high margin and growth opportunities
- Optimize manufacturing capacity and supply chain to better support customer demand and long-term growth
- Leverage commercial scale for Point of Care and Molecular Diagnostics business units
- Disciplined approach to evaluating inorganic growth opportunities

Near-Term Priorities

Restore Investor Confidence: New CEO focused on improving performance and leveraging broad product portfolio, across the patient care spectrum

Improve Operational Performance: Realize enterprise-based cost savings initiatives (\$100M annualized), resolve remaining product supply constraints, increase free cash flow and reduce debt

Continue Growth in Underpenetrated IA Segments and High Growth OUS Markets: Aspirational goal of mid-to-high single digit sales growth, mid-to-high 20% adjusted EBITDA margins

Accelerate Menu Expansion: High-margin, high-growth menu opportunities in respiratory, sexually transmitted infections, gastro-intestinal, cardiometabolic and women's health testing

Thank you
