Disclaimer and Pro Forma Non-GAAP Financial Measures

Disclaimer: This presentation of QuidelOrtho Corporation (“QuidelOrtho” or the “Company”) contains unaudited pro forma financial information that gives effect to the business combination by and among QuidelOrtho, Quidel Corporation (“Quidel”), Ortho Clinical Diagnostics Holdings plc (“Ortho”), and certain other entities (the “Combinations”). The pro forma information presented is based on the historical financial statements of Quidel and Ortho with reclassification adjustments only and do not include pro forma adjustments required under Regulation S-X Article 11 or Accounting Standards Codification (ASC) 805. This unaudited pro forma financial information is provided for illustrative purposes only, may be updated in the future, and is not necessarily, and should not be assumed to be, indicative of the Company’s expected results of operations or financial position that would have been achieved had the Combinations been completed as of the dates indicated or that may be achieved in any future period. The unaudited pro forma financial information should be read in conjunction with the information contained in the sections entitled “The Combinations,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations of Ortho” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations of Quidel” of the joint proxy statement/prospectus (the “Joint Proxy Statement/Prospectus”) filed with the Securities and Exchange Commission (the “Commission”) on April 11, 2022 and the historical consolidated financial statements and related notes appearing elsewhere in, or incorporated into, the Joint Proxy Statement/Prospectus. The Company’s actual results of operations and financial position will differ, potentially significantly, from the unaudited pro forma amounts reflected in this presentation as a result of the methodology used to prepare the unaudited pro forma financial information as well as a variety of factors, including but not limited to the effect of certain expected financial benefits of the Combinations (such as revenue and cost synergies), the anticipated costs to achieve these benefits (including the cost of integration activities), tax impacts, changes in value not currently identified, and changes in operating results following the date of the unaudited pro forma financial information.

The Company describes other risks that are applicable to its business generally that could affect its results of operations and financial position under “Risk Factors” in the Joint Proxy Statement/Prospectus and subsequent reports filed with the Commission. Accordingly, you should carefully consider such risks when reviewing the information contained in this presentation.

Pro Forma Non-GAAP Financial Measures: This presentation contains pro forma financial measures, including but not limited to constant currency revenue growth, adjusted net income, adjusted EBITDA, adjusted EBITDA margin, and adjusted diluted EPS, which are considered pro forma non-GAAP financial measures under applicable rules and regulations of the Commission. These pro forma non-GAAP financial measures should be considered supplemental to, and not a substitute for, financial information prepared in accordance with generally accepted accounting principles in the U.S. (“GAAP”). QuidelOrtho’s definitions of these pro forma non-GAAP measures may differ from similarly titled measures used by others. QuidelOrtho generally uses these non-GAAP financial measures to facilitate management’s financial and operational decision-making, including evaluation of the Company’s historical operating results, and comparison to competitors’ operating results. These pro forma non-GAAP financial measures reflect an additional way of viewing aspects of QuidelOrtho’s pro forma operations that, when viewed with pro forma GAAP results and the reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the Company’s pro forma business. Because non-GAAP financial measures exclude the effect of items that will increase or decrease the Company’s pro forma reported results of operations, management strongly encourages investors to review the consolidated financial statements of Ortho and Quidel set forth in each of their respective filings with the Commission in their entirety. Reconciliations of the pro forma non-GAAP financial measures to the most directly comparable pro forma GAAP financial measures are included in the Appendix to this presentation.

1. Amounts above are presented in millions and on a pro forma non-GAAP adjusted basis. Pro Forma amounts include the results of historical Quidel and Ortho with reclassification adjustments only and do not include any pro forma adjustments required under Regulation S-X Article 11 or ASC 805. This additional pro forma non-GAAP financial information is not meant to be considered in isolation from or as substitute for financial information prepared in accordance with GAAP. See reconciliation of pro forma non-GAAP measures included in Appendix.
2. The pro forma adjusted diluted earnings per share calculations are based on the combined diluted weighted average shares, after giving effect to the Ortho Exchange Ratio and the Quidel Exchange Ratio pursuant to the Business Combination Agreement. The historical diluted weighted average shares of Ortho are assumed to be replaced by the shares issued by QuidelOrtho to effect the Combinations.
