Board Leadership Structure and Risk Oversight

Our corporate governance principles provide our Board with the flexibility to combine or separate the positions of Chairman of the Board and Chief Executive Officer (“CEO”). We believe this provides the Board with flexibility to determine the structure that is in the best interests of the Company across a range of situations. Historically, our Board has determined that the roles of Chairman and CEO should be separate as this structure enables our Chairman to maintain responsibility for coordinating Board activities, including the scheduling of meetings and executive sessions of the non-employee directors and managing the relevant agenda items in each case (in consultation with the CEO as appropriate), and our CEO to focus on leading and managing the Company. Kenneth F. Buechler, Ph.D. has served as our Chairman of the Board since 2015. If the Board determines that it is preferable to combine the position of Chairman and CEO, our Board intends to designate an independent director to serve as lead independent director. Our Board believes that its approach for overseeing risk, as described below, would be effective under a variety of leadership frameworks. Accordingly, our Board’s risk oversight function did not significantly impact its selection of the current leadership structure.

We take a comprehensive approach to risk management. We believe risk can arise in every decision and action taken by the Company, whether strategic or operational. We, therefore, seek to include risk management principles in all of our management processes and in the responsibilities of our employees at every level. Our comprehensive approach is reflected in the reporting processes by which our management provides timely and comprehensive information to the Board to support the Board’s role in oversight, approval and decision-making.

Our Board closely monitors the information it receives from management and provides oversight and guidance to our management team concerning the assessment and management of risk. The Board approves the Company’s high-level operating objectives, goals, strategies and policies to set the tone and direction for appropriate risk taking within the business. The Board and its committees then emphasize this tone and direction in their oversight of management’s implementation of the Company’s operating objectives, goals, strategies and policies.

Our senior executives provide the Board and its committees with regular updates about the Company’s strategies and objectives and the risks inherent within them at Board and committee meetings and in regular reports. Board and committee meetings also provide a venue for directors to discuss issues with management. The Board and its committees call special meetings when necessary to address specific issues or take specific actions. In addition, our directors have access to Company management at all levels to discuss any matters of interest, including those related to risk. Those members of management most knowledgeable about the issues often attend Board meetings to provide additional insight into items being discussed, including risk exposures.

Our Board has delegated oversight of matters involving certain specific areas of risk exposure to its three standing committees. Each committee generally reports to the Board at regularly scheduled Board meetings, and more frequently if appropriate, with respect to matters and risks for which such committee provides oversight. The specific responsibilities of each of our Board committees are more fully described below in the “—Audit Committee,” “—Compensation Committee” and “—Nominating and Corporate Governance Committee” sections.

Board of Directors Meetings, Committees of the Board and Related Matters

The Board currently has three standing committees – the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee. The Board held 24 meetings, excluding committee meetings, during the year ended December 31, 2021. All current directors and nominees attended at least 75% of all meetings of the Board and its committees, if any, on which the directors served during the year ended December 31, 2021. Information about our directors and our Board committees in 2021 follows.

Under the Audit Committee's written charter, the specific duties of the Audit Committee include, among others: monitoring the integrity of our financial process and systems of internal controls regarding finance, accounting and legal compliance; selecting our independent registered public accounting firm; monitoring the independence and performance of our independent registered public accounting firm; and providing an avenue of communication among our independent registered public accounting firm, our management and our Board. The Audit Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, and it has direct access to all of our employees and to our independent registered public accounting firm. The Audit Committee also has the ability to retain, at our expense and without further approval of the Board, legal, accounting or other consultants or experts that it deems necessary in the performance of its duties.

Report of the Audit Committee of the Board of Directors

The Audit Committee oversees our financial reporting process on behalf of the Board. Management has the responsibility for preparing the Consolidated Financial Statements and for the reporting process, including the Company's systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2021 with management, including a discussion of the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the Consolidated Financial Statements.

The Audit Committee has discussed and reviewed with our independent registered public accounting firm all matters required to be discussed under the Public Company Accounting Oversight Board ("PCAOB") Accounting Standard No. 1301 (Communications with Audit Committees), as may be modified or supplemented. The Audit Committee has met with the independent registered public accounting firm to discuss the overall scope and plans for the independent registered public accounting firm's audit, the results of its examinations, its evaluations of our internal controls and the overall quality of our accounting and financial reporting. The Audit Committee also discussed with the independent registered public accounting firm the firm's judgments as to the substance and clarity, not just the acceptability, of our accounting principles and financial statement disclosures. The Audit Committee has also considered whether the independent registered public accounting firm's provision of non-audit services to us is compatible with the independent registered public accounting firm's independence.

The Audit Committee also reviewed management's report on its assessment of the effectiveness of our internal control over financial reporting and Ernst & Young LLP's report on the effectiveness of our internal control over financial reporting.

The Audit Committee has received from the independent registered public accounting firm a formal written statement describing all relationships between the independent registered public accounting firm and us that might bear on the independent registered public accounting firm's independence consistent with PCAOB Rule 3526 (Communication with Audit Committees Concerning Independence), has discussed with the independent registered public accounting firm any relationships that may impact its objectivity and independence, and has satisfied itself as to the independent registered public accounting firm's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board (and the Board has approved) that the audited Consolidated Financial Statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021.

The Compensation Committee also has the ability to retain, at our expense and without further approval of the Board, compensation consultants and advisors that it deems necessary in the performance of its duties.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is responsible for assisting the Board in identifying qualified candidates for election to the Board; recommending the composition of the Board and its committees; monitoring and assessing the effectiveness of the Board and its committees; and performing a leadership role in shaping and monitoring our corporate governance, environmental and sustainability policies and initiatives. Under the Nominating and Corporate Governance Committee's written charter, the specific duties of the Nominating and Corporate Governance Committee include, among others: identifying, reviewing and recruiting candidates for election to the Board; reviewing the qualifications of director candidates recommended by our stockholders; monitoring the independence of current directors and nominees; recommending to the Board candidates for election or re-election to the Board at each annual meeting of stockholders; overseeing the periodic evaluation of the Board, its committees and each of our incumbent directors; reviewing Board succession planning; and overseeing our Corporate Governance Guidelines, Code of Business Conduct and Ethics and sustainability strategy, initiatives and policies (including oversight of environmental management, climate risk, human rights, diversity and inclusion, stakeholder engagement and business ethics programs).

Meetings of Non-management Directors

The non-management members of the Board regularly meet in executive sessions without any employee director or other members of management in attendance.

Director Nominations

The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. The Nominating and Corporate Governance Committee utilizes a variety of methods for identifying and evaluating director candidates. Candidates may come to the attention of the Nominating and Corporate Governance Committee through current directors, professional search firms, stockholders or other persons.

Once the Nominating and Corporate Governance Committee has identified a prospective nominee, the Nominating and Corporate Governance Committee will evaluate the prospective nominee in the context of the then-current composition of the Board and will consider a variety of other factors, including the prospective nominee's business, technology, medical, scientific, industry, finance and financial reporting experience and other attributes that would be expected to contribute to an effective Board. As described in our Corporate Governance Guidelines, in evaluating the suitability of individuals to serve as members of our Board, the Board and the Nominating and Corporate Governance Committee consider a number of factors, including: experience at a policy-making level; strategic thinking; depth of understanding of the Company's industry, including relevant technology, leadership and objectivity; and a general understanding of marketing, finance and other disciplines relevant to the success of a publicly traded company and of sound principles of corporate governance in today's business environment. The Nominating and Corporate Governance Committee seeks to identify nominees who possess a wide range of experience, skills, and areas of expertise, knowledge and business judgment. Nominees must have the attributes described above in the "—Qualifications and Characteristics for Directors" section.

Our Nominating and Corporate Governance Committee will consider stockholder recommendations for director candidates. A stockholder may propose a person for consideration by the committee by submitting the individual's name and qualifications to our Corporate Secretary, Quidel Corporation, 9975 Summers Ridge Road, San Diego, California 92121. The Nominating and Corporate Governance Committee will consider each stockholder-recommended candidate in the same manner and under the same criteria used to evaluate all other candidates (as described above). The Board and the Nominating and Corporate Governance Committee evaluate each individual in the context of Board functions as a whole and in light of the then-current needs of the Board, with the objective of providing independent, diversified and effective representation of the interests of our stockholders.

Stockholders who wish to nominate candidates for election to the Board at any annual meeting must follow the procedures set forth in our bylaws, including providing timely written notice, in proper form, of the intent to make such a nomination.

Communications with the Board of Directors

Our stockholders may communicate with our Board, a committee of our Board or an individual director by sending a letter addressed to the Board, a committee or a director, c/o Corporate Secretary, Quidel Corporation, 9975 Summers Ridge Road, San Diego, California 92121. All communications will be compiled by our Corporate Secretary and forwarded to the Board, the committee or the director accordingly.

Director Attendance at Annual Meetings

Our Board has adopted a policy that encourages our directors to attend our annual meetings of stockholders. All of our directors attended the 2021 Annual Meeting of Stockholders.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all our officers, directors and employees. - We are committed to ensuring that the standards of our suppliers are well aligned with those of Quidel. We have a documented supplier management process, including guidelines on supplier selection and supplier controls and management.

Delinquent Section 16(a) Reports

Section 16(a) of the Exchange Act requires our directors, executive officers and holders of more than 10% of our common stock to file reports of their ownership and changes in ownership of our common stock with the SEC. Specific due dates for these reports have been established, and we are required to disclose in this Amendment any late filings during the year ended December 31, 2021. Based solely on our review of the reports filed during 2021 and written representations from our directors and executive officers that no other reports were required, all Section 16(a) filing requirements were satisfied with respect to 2021, except that one Form 4 for William J. Ferenczy, reporting two transactions, that was due on June 15, 2021 and one Form 4 for Michelle A. Hodges, reporting one transaction, that was due on May 27, 2021 were filed late on June 16, 2021.

Item 11. Executive Compensation

Compensation Discussion and Analysis

Throughout this Amendment, the individuals who served as our CEO and Chief Financial Officer (“CFO”) during fiscal year 2021, as well as the other individuals listed in the Summary Compensation Table below, are referred to as the “Named Executive Officers” or “NEOs.” For 2021, our NEOs are as follows: Douglas C. Bryant, President and CEO; Randall J. Steward, CFO; Robert J. Bujarski, Chief Operating Officer; Michelle A. Hodges, SVP, General Counsel; and Werner Kroll, SVP, Research and Development.

Executive Summary

Quidel entered 2021 with considerable momentum and experienced another transformational year. We opened new channels, shipped a record number of critical products to detect COVID-19 infections, launched our Savanna MDx instrumented system in select ex-U.S. markets, and overcame obstacles and seized opportunities to broaden the range of patients, partners and providers we serve and establish a foundation for the future, while continuing to deliver existing products to customers around the world. Among the many outstanding performance achievements during 2021 were:

- Total revenue for 2021 increased to \$1,698.6 million, a 2% increase from \$1,661.7 million in 2020;
- Revenue for COVID-19 products in 2021 increased 42% to \$1,267.0 million, from \$891.0 million in 2020;
- Reported GAAP EPS of \$16.43 per diluted share in 2021, compared to \$18.60 per diluted share in 2020;
- Entered retail and at-home testing markets with QuickVue At-Home OTC COVID-19 test by creating partnerships with CVS, Walgreens, McKesson, and National Institutes of Health (“NIH”);
- Secured 12-month agreement with U.S. government expected to be worth over \$500 million to supply QuickVue At-Home OTC COVID-19 tests;
- Resolved ongoing litigation with Beckman Coulter, Inc. (“Beckman”); substantially completed transition of the BNP business to Beckman in connection with which Quidel will receive cash payments of between \$70.0 million and \$75.0 million per year from 2022 through 2029;
- Opened new highly automated QuickVue manufacturing facility in Carlsbad, California; and
- Signed definitive agreement to acquire Ortho Clinical Diagnostics Holdings plc (“Ortho”), to be funded through a combination of cash and newly issued debt of the combined company.

We believe that the compensation to our NEOs, including certain special compensation awards granted during 2021 in recognition of outstanding performance during the year, aligned well with both our performance in 2021 and the objectives of our executive compensation policies.

Overview and Philosophy

Despite the continued COVID-19 demands and transformational changes to the Company in 2021, the core objectives of our compensation program continued to be to (1) support our mission, values and corporate strategies by adopting a “pay for performance” philosophy that provides incentives to our executive officers and employees for support of these core principles; (2) align the interests of management with those of our stockholders; and (3) attract, retain and motivate high quality executives. Towards these objectives, our compensation program is designed with the following principles:

- Provide an opportunity for the Company to communicate to our executive officers and employees our performance expectations and priorities directly through the selection of performance measures on which compensation is based, and calibrate payouts with achievement of those performance measures;
- Align pay such that management shares in value created from their efforts, and the Company’s compensation expense is correlated to its profitability and stockholder returns;
- Balance rewards appropriately between efforts and results;
- Offer a competitive total compensation opportunity; and
- Have a significant portion of total compensation paid to our executive officers in equity and dependent upon the achievement of performance goals of the Company.

Our compensation program focuses on both short and long-term results and is composed of three key elements: (1) base salaries, which reflect individual positions and responsibilities; (2) annual cash incentive opportunities, which are a function of the short-term performance of the Company; and (3) longer-term stock-based incentive opportunities under our equity incentive plans, generally in the form of stock options or restricted stock unit (“RSU”) grants, which link the interests of senior management with our other stockholders. Each of our compensation elements is designed to simultaneously fulfill one or more of our core objectives. During 2021, we augmented these key compensation elements with special compensation awards made to key employees in recognition of their outstanding leadership and performance at a transformational time for the Company. In 2022, we will continue to make special compensation awards, as appropriate, to recognize outstanding performance during a period of unprecedented transformation, challenges, opportunities and change.

When setting compensation for 2022 and in determining compensation policies, the Compensation Committee continued its engagement of Compensia, Inc. (“Compensia”) to advise on the Company’s executive compensation programs and took into account the results of the stockholder advisory vote on executive compensation that took place at the 2021 Annual Meeting of Stockholders. In that vote, which was advisory and not binding, our stockholders approved the compensation of our named executive officers as disclosed in the Proxy Statement for the 2021 Annual Meeting of Stockholders with over 97.5% of votes cast in favor of the compensation of our named executive officers. The Compensation Committee considered the advice of Compensia and continued to apply the same general compensation principles and philosophy, while making some adjustments to the Company’s compensation programs in connection with success, integration and retention matters in connection with the pending Ortho business combination. We currently hold annual advisory votes on executive compensation.

Administration

The Compensation Committee of the Board administers the Company’s executive compensation programs and approves (or recommends to the Board for approval) salaries of all executive officers, including those of the NEOs named in the Summary Compensation Table. The Compensation Committee is responsible for reporting to the Board and administering all other elements of executive compensation, including annual cash incentive and equity awards.

Compensation Plan Design and Key Elements Used to Achieve Compensation Objectives

The cash components of salary and annual incentive bonus are targeted to be moderate, yet competitive in relation to salaries and annual incentive bonuses paid to officers in similar positions in comparable companies.

Our 2021 long-term equity incentive programs for our CEO included incentive stock-based awards in the form of non-qualified stock options, time-based RSUs and performance-based RSUs and for other NEOs included incentive stock-based awards in the form of non-qualified stock options and/or time-based RSUs. The vesting for both the non-qualified stock options and the time-based RSUs for typical annual equity awards is over a four-year period, with 25% vesting each year on the anniversary of the grant date, with certain exceptions. Mr. Steward and Dr. Kroll received awards pursuant to the specific terms of their respective individual retirement programs, comprised entirely of time-based RSUs that vest over a three-year period, with one-third vesting each year on the anniversary of the grant date. The vesting for the performance-based RSUs for Mr. Bryant is over a five-year period and is tied to the achievement of net revenue growth targets over any three consecutive fiscal year period starting with the three-year period ending in 2023.

The Compensation Committee engaged Compensia to conduct a review of the competitiveness of the Company’s executive compensation programs in 2021 in connection with determining the Company’s 2022 executive compensation program, separate from the pending business combination with Ortho. Our executive compensation program design builds on the analysis and direction of Compensia, taking into account data from the annual Radford Global Life Sciences Survey (the “Radford Survey”) and incorporates review of comparative groups of publicly traded companies with similar revenue and employee population profiles. The Radford Survey provides data from participating companies with respect to their compensation practices in numerous areas and with respect to various positions, including senior management positions. Based on the assessment by Compensia and the Compensation Committee, the 2021 peer group was used for our 2022 compensation assessment and did not assume that the business combination with Ortho was completed. For both 2021 and 2022, the following peer group companies were used for compensation comparisons:

2021 and 2022 Peer Group:

Align Technology, Inc.
CONMED Corporation
Emergent BioSolutions, Inc.
Envista Holdings Corporation
EXACT Sciences Corporation
Haemonetics Corporation
Hill-Rom Holdings, Inc. (through acquisition in 2021)
Hologic, Inc.
ICU Medical, Inc.
IDEXX Laboratories, Inc.
Insulet Corporation

Integra LifeSciences Holdings Corporation
Masimo Corporation
Merit Medical Systems, Inc.
NuVasive, Inc.
ResMed, Inc.
Teleflex, Inc.
Cooper Companies, Inc.
Varian Medical Systems, Inc. (through acquisition in 2021)
Waters Corporation
West Pharmaceutical Services, Inc.

Should the business combination with Ortho be completed, our Compensation Committee, with the assistance of Compensia, will modify this peer group, as needed, to take into account the much larger size of the combined entity and plans to adjust executive compensation if appropriate.

Our Compensation Committee utilizes management and independent compensation consultants (such as Compensia in each year since 2018) to gather market data and provide analyses of our peers' compensation programs. The Compensation Committee does not have a philosophy of setting compensation based on specific formulaic benchmarking comparisons, but it does take into account the guidance of compensation consultants and reviews peer group data and the Radford Survey data in setting moderate, yet competitive compensation.

Since 2017, our Compensation Committee has continued to more evenly allocate the equity incentive awards between stock options and RSUs, with 50% of the number of shares awarded in the form of non-qualified stock options and 50% of the number of shares awarded in the form of RSUs, with the recent exception of certain NEOs subject to individual retirement programs as the Compensation Committee deemed appropriate. In addition, our Compensation Committee determined it would be in the interest of stockholders to eliminate performance-based RSUs for all executive officers other than the CEO in 2021 to better align with peer group practices.

Base Salary

Base salaries are reviewed annually and are targeted to be moderate, yet competitive in relation to salaries paid to officers in similar positions in comparable companies. With the exception of the CEO, whose performance is reviewed directly by the Board, performance of all other executive officers is reviewed through regular conversations on goals and achievement with the CEO in consultation with the Compensation Committee (and/or the Board).

In 2021, in connection with the setting of the base salaries of our executive officers, the Compensation Committee considered peer group analysis and also examined survey data for executives with similar responsibilities in comparable companies in the medical device/diagnostics and biotechnology industries, using analysis performed by Compensia and referring to a custom report prepared by Compensia from data contained in the 2021 Radford Survey based on companies with a similar number of employees compared to the Company. The base salaries of each of our executive officers were set taking into account comparable data for salaries relevant for their positions, and then modified to further take into account our executive officers' experience and skills.

Annual Cash Incentive Awards

Our annual cash incentive program provides the potential for receipt of competitive levels of annual incentive cash compensation and is designed to reward senior management for their contributions to the Company's annual corporate objectives. Under our annual cash incentive program, each participating officer is entitled to receive a cash bonus based on achievement of certain corporate goals in the particular fiscal year. Goals and payouts are calibrated to strike the appropriate balance between being reasonably achievable, and thereby motivating executives, while targeting improved performance. The balance is intended to result in the Company receiving an appropriate return on its annual incentive investment. The corporate performance goals are selected to require sustained performance and results from senior management. Each eligible executive's potential annual award under the annual cash incentive program is expressed as a percentage of base salary as of the end of the fiscal year.

In February 2021, the Compensation Committee approved the 2021 Executive Incentive Compensation Plan (the “2021 Cash Incentive Plan”), subject to ongoing review throughout the year based on fluctuating demand and expectations in connection with the COVID-19 impact on the Company’s business. Consistent with the 2020 Cash Incentive Plan, the Compensation Committee determined it was appropriate to continue to use a limited set of key components. Similar to prior plans, the 2021 Cash Incentive Plan was designed to encourage improved performance in objectives and to improve long-term performance and results for the Company and its stockholders.

The target bonus for the 2021 Cash Incentive Plan was initially set at 100% of annual base salary for our CEO and 75% of annual base salary for other executive officers and provided for a maximum bonus of 140% of annual base salary for our CEO and 105% of annual base salary for our other executive officers.

The 2021 Cash Incentive Plan consisted of the following two components: (1) revenue performance; and (2) EBITDA targets. Each component of the 2021 Cash Incentive Plan includes targets at minimum, plan/target and maximum payout. The minimum targets serve as the threshold level of performance upon which the incentive pool would begin to fund for that component. Achievement of the components at plan/target will earn the target cash incentive opportunity. Payouts are calculated along a linear continuum from minimum to plan/target and from plan/target to maximum with the maximum target serving as the point at which the management team will earn the highest possible cash incentive opportunity. The minimum target must be met in order for a portion of the bonus to be paid relative to any one of the two components and each component is measured separately. The Compensation Committee may adjust the targets to take into account acquisitions and divestitures (so that management is not rewarded or penalized for factors outside management’s control) and retains the right to exercise discretion in modifying amounts awarded to take into account significant events that were not contemplated under the plan.

At the time the 2021 Cash Incentive Plan was initially reviewed and approved in early 2021, the Company’s operations and size had changed dramatically since the onset of the COVID-19 pandemic in March of 2020. Throughout 2020 and continuing throughout 2021, demand for COVID-19 testing in general, and for the Company’s COVID-19 products specifically, fluctuated significantly month-to-month and quarter-to-quarter in response to vaccine rollouts, decreasing infection and death rates, and subsequent surges resulting from variants such as Delta and Omicron. This made forecasting volume and pricing of the Company’s COVID-19 products difficult, which resulted in a corresponding challenge in forecasting the Company’s revenue, EBITDA and other financial metrics. At the time the 2021 Cash Incentive Plan was initially approved, the macro environment suggested an extreme demand for COVID-19 testing at higher prices. As vaccine rollouts continued and infection and death rates declined significantly moving into the summer of 2021, the demand for COVID-19 tests as well as the pricing for tests declined significantly, making it clear that the market assumptions for the 2021 Cash Incentive Plan were not likely to be realized and accordingly the metrics under the initially approved 2021 Cash Incentive Plan would not be achievable, but the Company was performing well and meeting significant milestone and performance targets that deserved to be rewarded and incented. In response, the Compensation Committee determined in early September 2021 that the revenue and EBITDA targets for the 2021 Cash Incentive Plan were not realistic. The Compensation Committee further determined that it needed to continue to provide incentives for its senior management team, especially considering the extremely challenging environment the Company was experiencing in ramping up its COVID-19 test production and the intense competition for qualified human resources in the economy in general. Accordingly, in September 2021, the Compensation Committee established a modified 2021 Cash Incentive Plan that included a 2021 EBITDA target of at least \$500 million; certain Savanna launch targets by the end of the year; certain transition targets in connection with the Beckman transition agreement; and certain over-the-counter COVID-19 manufacturing milestones and Quidel home testing app development milestones. As part of this adjustment, however, the Compensation Committee further determined to reduce the target payout percentages for senior executives by 50%, while maintaining the full percentage payout for all other employees.

The following table represents the threshold, plan/target and maximum bonus for each of the NEOs as a percentage of such NEO's annual base salary under the 2021 Cash Incentive Plan, as adjusted in September 2021.

Executive Officer	Threshold	Plan/Target	Maximum
Douglas C. Bryant President and CEO	5.0 %	50.0 %	62.5 %
Randall J. Steward Chief Financial Officer	3.8 %	37.5 %	46.9 %
Robert J. Bujarski Chief Operating Officer	3.8 %	37.5 %	46.9 %
Michelle A. Hodges SVP, General Counsel	3.8 %	37.5 %	46.9 %
Werner Kroll, Ph.D. SVP, Research and Development	3.8 %	37.5 %	46.9 %

For the 2021 Cash Incentive Plan, as modified, bonus payouts to our executive officers for 2021 were based on achievement at 125% of target and paid out at 50% under the revised plan: 50% based on the Company's achievement of EBITDA goals (actual results of \$995 million or 199% of \$500 million target); 20% based on achievement of Savanna launch targets; 10% based on achievement of Beckman transition targets; 10% based on achievement of over-the-counter COVID-19 manufacturing targets; and 10% based on achievement of Quidel home testing app development targets.

Annual Cash Incentive Awards

On January 31, 2022, the Compensation Committee approved payouts to executive officers for achievement of all goals under the revised 2021 Cash Incentive Plan at 62.5% of base salary for the CEO and 46.9% of base salary for the other NEOs. These payout amounts were based on achievement of (i) EBITDA performance at the maximum level and (ii) full achievement of all other milestone targets. The bonuses earned by Mr. Bryant, Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll were \$547,188, \$234,164, \$246,094, \$210,938 and \$257,813, respectively.

Deferred Bonus Program

Each of the above NEOs is eligible to elect to participate in the Company's Employee Deferred Bonus Compensation Program (the "Employee Deferred Program") with respect to any payments received under the 2021 Cash Incentive Plan, 2022 Cash Incentive Plan (as defined below) and future cash incentive plans. Under the Employee Deferred Program, participating officers could elect to receive 50% or 100% of the cash value of his or her annual cash incentive bonus (the "Covered Bonus") (payable (if applicable) per the terms and conditions of the 2021 and 2022 Cash Incentive Plans) in the form of fully vested RSUs (the "Converted RSUs"), plus an additional premium on such percentage of the Covered Bonus in the form of additional RSUs, which are subject to a one-year vesting requirement (the "Premium RSUs"). The additional premium applicable to the Premium RSUs will be determined based on the length of time of the deferral period (between the grant date and the date the shares of common stock underlying the Converted RSUs are to be issued) selected by the participating officer as follows: (i) if one (1) year from the grant date, a premium of 10% on the amount deferred of the Covered Bonus; (ii) if two (2) years from the grant date, a premium of 20% on the amount deferred of the Covered Bonus; or (iii) if four (4) years from the grant date, a premium of 30% on the amount deferred of the Covered Bonus.

Elections for the Employee Deferred Program for 2021 and 2022, which are irrevocable, were made by the following NEOs:

Executive Officer	2021		Deferral Period	2022	
	Amount Deferred			Amount Deferred	Deferral Period
Douglas C. Bryant President and CEO	50	%	4 years	100	% 4 years
Randall J. Steward Chief Financial Officer	50	%	2 years	—	—
Robert J. Bujarski Chief Operating Officer	50	%	4 years	—	—
Michelle A. Hodges SVP, General Counsel	50	%	2 years	—	—
Werner Kroll, Ph.D. SVP, Research and Development	—		—	—	—

The Converted RSUs will be fully vested on the grant date. The Premium RSUs will be fully vested on the first anniversary of the grant date. Subject to the terms and conditions in the grant award agreement, the shares of common stock underlying Converted RSUs will be issued as soon as administratively practicable after the earliest of: (1) the end of the deferral period selected by the participating officer; (2) the participating officer's separation from the Company; and (3) a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company (a "Change in Control"). The shares of common stock underlying the Premium RSUs will have the same applicable issuance periods as outlined in the foregoing sentence for Converted RSUs with acceleration of the one-year vesting requirement in connection with a Change in Control; provided, however, that if a participating officer's service is terminated for any reason (outside of a Change in Control) prior to the one-year vesting requirement, the Premium RSUs shall be forfeited and canceled as of the date of such termination of service.

Longer-Term Equity Incentive Awards

Longer-term equity-based incentive awards in the form of stock options and/or RSUs are intended to align the interests of management with those of the Company's other stockholders and promote retention of our executives by using continued service, and in the case of certain awards, the achievement of specified performance levels, as a requirement to receive the value of the awards. The number of stock options and/or shares of RSUs granted is related to the individual's level of responsibility and allows executives to share in the value they help create. Generally, the Compensation Committee does not consider an executive's stock holdings or outstanding equity awards in determining the number of equity awards to be granted; however, the Compensation Committee does take into consideration the total number of outstanding shares of our common stock, the relative dilution to stockholders, as well as our gross equity burn rate, issued equity overhang and total equity overhang in determining the number of equity awards to be granted. The Compensation Committee believes that the Company's executive officers should be fairly compensated each year relative to market pay levels of the Company's peer group. The Compensation Committee views longer-term equity incentives as a primary compensation means for retaining executives.

Our 2021 long-term equity incentive program for our CEO included incentive stock-based awards in the form of non-qualified stock options, time-based RSUs and performance-based RSUs and for Mr. Bujarski and Ms. Hodges included incentive stock-based awards in the form of both non-qualified stock options and time-based RSUs. The vesting for the non-qualified stock options is over a four-year period, with 25% vesting each year on the anniversary of the grant date. The stock options have an exercise price equal to the closing price of our common stock on the grant date. Consistent with 2020, the Compensation Committee determined to weight the number of shares awarded for long-term incentive awards between stock options and RSUs, which the Compensation Committee believed was in alignment with peer group practices. In 2021, for Mr. Bujarski and Ms. Hodges, 50% of the equity incentive award shares were provided in the form of non-qualified stock options and 50% of the equity award shares were provided in the form of RSUs. For the CEO, the number of RSUs were divided equally between time-vested RSUs and performance-based RSUs. For Mr. Bujarski and Ms. Hodges, the vesting for the time-based RSUs is over a four-year period, with 25% vesting each year on the anniversary of the grant date. The vesting for the performance-based RSUs granted to the CEO is over a five-year period and is tied to the achievement of net revenue growth targets, as adjusted for the financial impact of merger, acquisition and divestiture activities. The amounts of the awards were determined based on the executive compensation analysis and review performed by Compensia, which takes into account data from the Radford Survey and peer group compensation practices, as discussed in the “—Compensation Plan Design and Key Elements Used to Achieve Compensation Objectives” section above. The awards for Mr. Steward and Dr. Kroll were comprised entirely of time-based RSUs that vest over a three-year period, with one-third vesting each year on the anniversary of the grant date, pursuant to the terms of each executive’s individual retirement program. See the “—Employment, Change in Control and Severance Arrangements” section.

In 2021, Mr. Bryant, Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll were awarded non-qualified stock options, time-based RSUs, and performance-based RSUs, as follows:

2022 Compensation Actions

In January 2022, the Compensation Committee approved the Company's 2022 cash incentive plan for the initial six-month period of the Company's fiscal year ending December 31, 2022 (the "2022 Cash Incentive Plan"). Payout under the 2022 Cash Incentive Plan is predicated upon achievement of (i) revenue targets and (ii) EBITDA targets, with each of the foregoing as determined by the Board and/or the Compensation Committee, for the initial six-month period of the Company's 2022 fiscal year, based on the assumption that the second-half targets would be established after the anticipated closing of the Ortho business combination. The following table represents the threshold, plan/target and maximum bonus for each of the NEOs as a percentage of such NEO's annual base salary under the 2022 Cash Incentive Plan.

Executive Officer	Threshold	Plan/Target	Maximum
Douglas C. Bryant President and CEO	62.5 %	125 %	175 %
Randall J. Steward Chief Financial Officer	37.5 %	75 %	105 %
Robert J. Bujarski Chief Operating Officer	50.0 %	100 %	140 %
Michelle A. Hodges SVP, General Counsel	37.5 %	75 %	105 %
Werner Kroll, Ph.D. SVP, Research and Development	37.5 %	75 %	105 %

For the 2022 Cash Incentive Plan, bonus payouts to our executive officers will be based 60% on achievement of revenue performance and 40% on EBITDA goals.

Also in January 2022, the Compensation Committee approved the Company's 2022 long-term equity incentive program. Under the 2022 equity incentive program, each NEO receives equity incentive awards in the form of (i) time-based RSUs and/or (ii) non-qualified stock options as follows:

Executive Officer	Time-Based Restricted Stock Units (# shares)	Non-Qualified Stock Options (# shares)
Douglas C. Bryant President and CEO	27,043	27,043
Randall J. Steward Chief Financial Officer	14,512	—
Robert J. Bujarski Chief Operating Officer	12,878	12,876
Michelle A. Hodges SVP, General Counsel	6,439	6,438
Werner Kroll, Ph.D. SVP, Research and Development	10,642	—

The vesting periods for the non-qualified stock options and time-based RSUs, with the exception of awards to Mr. Steward and Dr. Kroll, are each over a four-year period, with 25% vesting each year on the anniversary of the grant date. The awards to Mr. Steward and Dr. Kroll in 2022 are comprised entirely of time-based RSUs that vest over a three-year period, with one-third vesting each year on the anniversary of the grant date, pursuant to the terms of such executive's individual retirement program.

On January 31, 2022, in connection with the anticipated closing of the Ortho business combination, the Compensation Committee also approved the grant of (i) success bonus awards for each of Mr. Bryant, Mr. Steward, Mr. Bujarski and Ms. Hodges in the following amounts: Mr. Bryant: \$875,500; Mr. Steward: \$499,550; Mr. Bujarski: \$525,000; and Ms. Hodges: \$450,000; (ii) integration/retention cash bonus awards for each of Mr. Bryant, Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll in the following amounts: Mr. Bryant: \$717,500; Mr. Steward: \$349,685; Mr. Bujarski: \$420,000; Ms. Hodges: \$315,000; and Dr. Kroll: \$385,000; and (iii) integration/retention equity awards for each of Mr. Bryant, Mr. Bujarski, Ms. Hodges and Dr. Kroll in the following amounts: Mr. Bryant: \$2,500,000; Mr. Bujarski: \$1,400,000; Ms. Hodges: \$750,000; and Dr. Kroll: \$750,000. The success bonus awards will be grossed up for taxes and become payable upon the closing of the Ortho business combination. The first 25% of the integration/retention cash bonus awards will become payable upon the closing of the Ortho business combination, and the remaining 75% upon the first anniversary thereof. The integration/retention equity awards were granted in the form of RSUs and will vest with respect to 50% of the award on the second anniversary of the grant date and the remaining 50% in equal annual installments (25% per year) thereafter; provided, however, that (x) the vesting of the RSUs is contingent upon the consummation of the Ortho business combination having occurred prior to the applicable vesting date, and (y) the RSUs will be automatically forfeited in the event the agreement governing the Ortho business combination transaction is terminated in accordance with its terms.

Equity Ownership Guidelines

To further align the interests of our directors and executives with those of our other stockholders, the Board has adopted stock ownership guidelines and increased ownership requirements for our CEO and directors in 2020. Under these guidelines, each non-employee director, the CEO, each Senior Vice President and each Vice President is required to retain and hold 50% of the shares acquired under any equity incentive award granted on or after March 19, 2004 (after subtracting shares sold to pay for option exercise costs and relevant federal and state taxes, which are assumed to be at the highest marginal tax rates). The foregoing stock retention rule applies unless such director or officer beneficially owns shares with a value at or in excess of the following stock ownership guidelines:

- CEO — 6 times then-current annual base salary,
- Section 16 Officers — 2 times then-current annual base salary,
- Non-Section 16 Officer Senior Vice Presidents and Vice Presidents — 1 times then-current annual base salary, and
- Non-employee Directors — 5 times then-current annual cash retainer.

The value of an individual's shares for purposes of the stock ownership guidelines is deemed to be the greater of the then-current fair market value of the stock, or the individual's cost basis in the stock. Shares counted in calculating the stock ownership guidelines include shares beneficially owned outright, whether from open market purchases, purchases through the Company's Employee Stock Purchase Plan ("ESPP"), shares retained after option exercises, and shares received pursuant to RSU awards once the awards covering such shares have vested. In addition, in the case of vested, unexercised, in-the-money stock options, the in-the-money value of the stock options will be included in the stock ownership guidelines calculation. Also, the vested RSUs held pursuant to the Company's Deferred Compensation Programs are included in the stock ownership guidelines calculation. Individuals have five years from their election, hire or promotion to satisfy the stock ownership guidelines. All officers and directors meet these stock ownership guidelines or are in compliance with the guidelines by retaining equity awards until compliance is reached.

Restrictions on Trading Securities (Including Hedging and Pledging)

We have an Insider Trading Policy that prohibits employees and directors from engaging in speculative transactions involving our securities. Accordingly, hedging transactions involving our securities are prohibited, including, but not limited to, purchase of stock on margin, short sales, buying or selling puts or calls, and any other similar transactions or arrangements that have an economic consequence of establishing downside price protection. Our Insider Trading Policy also prohibits officers and directors from pledging Quidel stock, subject to special Board approval. No special approvals have been provided to allow any current officer or director to pledge Quidel stock.

Pay Recoupment (Clawback) Policy

Our Compensation Committee approved a clawback policy in February 2021 that covers annual and longer-term incentive compensation awarded or paid to our Section 16 officers. Under this policy, if we are required to restate our financial statements due to fraud, misconduct or SEC or financial non-compliance and the amount of our long-term incentive compensation awarded or paid would have been lower had the achievement of the applicable financial performance been calculated based on the restated financial results, our Compensation Committee may, in its discretion, recover the amount of excess compensation awarded or paid during the three-year period preceding the date of such restatement. We believe this clawback policy enhances the accountability of our executive officers and significantly mitigates the risks associated with our executive compensation program.

Employment and Severance Agreements

We have entered into change in control agreements with each of our executive officers in order to foster their objectivity in making decisions with respect to any pending or threatened change in control transaction and to alleviate certain risks and uncertainties with regard to our executive officers' financial and professional security that may be created by a pending or threatened change in control transaction. The details of the change in control agreements and any employment, retirement or severance arrangements entered into with our executive officers are provided in the "—Employment, Change in Control and Severance Arrangements" section.

Tax Deductibility of Compensation

In general, Section 162(m) of the U.S. Internal Revenue Code (the "Code") precludes publicly held corporations from deducting for U.S. federal income tax purposes in excess of \$1,000,000 per year in compensation per person paid to certain executives designated as "covered employees" under Section 162(m) of the Code (generally, the Company's CEO, CFO and its three highest paid executive officers other than its CFO). The exemption from Section 162(m)'s deduction limit for performance-based compensation has been repealed, effective for taxable years beginning after December 31, 2017, such that compensation paid to our covered employees in excess of \$1,000,000 will not be deductible unless it qualifies for limited transition relief applicable to certain arrangements in place as of November 2, 2017. The \$1,000,000 compensation limit was also expanded to apply to executives who were covered employees in years other than the then-current taxable year.

No assurance can be given that any compensation intended to satisfy the requirements for exemption from Section 162(m) as qualifying grandfathered arrangements in fact will or that compensation paid to our executive officers who are covered by Section 162(m) intended to be deductible will be deductible in the future.

While we will continue to consider the tax effect (including with respect to the expected lack of deductibility under amended Section 162(m)) of compensation decisions, the principal consideration behind our selection of components of executive compensation continues to be whether the component can facilitate achievement of our executive compensation program objectives. In this regard, for 2021, we have not made any changes to the basic structure of our executive compensation program.

Stock Option and RSU Grant Practices

As described above, the Company uses stock options as part of its overall compensation program. Stock options provide individuals with the right to purchase a specified number of shares of the Company's stock at a specific price. The Company sets the exercise price of the stock options that it awards at or above the closing price of the Company's stock on the grant date. Accordingly, the option grant will have value to the individual only if he or she continues his/her service to the Company during the vesting period and then generally only if and to the extent that the market price of the underlying shares of common stock appreciates over the option term.

Awards of equity-based compensation to our executive officers, such as options and RSUs, are determined and approved by the Board or the Compensation Committee. Equity grants are typically made at the time of hire for executives and then annually as part of the overall executive compensation review. The specific terms of the awards are determined based on the position of the individual in the organization and as part of the applicable annual equity incentive program and takes into account relevant Compensia and Radford Survey data and peer group compensation practices, as discussed above under the "—Compensation Plan Design and Key Elements Used to Achieve Compensation Objectives" section.

For executives, new hire grants are approved by the Board or the Compensation Committee when the executive's hire is approved, with the actual option grant issued on the first date of employment and the exercise price of such option set at the closing price of the Company's common stock on that date. Annual performance grants made as part of the overall executive compensation program are generally made as of the date of Board or Compensation Committee approval. This typically occurs prior to the end of the first quarter in each calendar year, with grants effective on the date of Board or Compensation Committee approval and at a price at or above the closing price on the grant date.

In addition, the Compensation Committee and the Board believe it is appropriate to consider special compensation awards in connection with the COVID-19 pandemic and other special circumstances and may continue to make special compensation awards, including equity-based awards, similar to 2020 and 2021, in order to incent and reward performance.

Perquisites and Other Benefits

The Compensation Committee believes that the NEOs should participate in the same benefit programs as the Company's other employees and that special executive perquisites should be minimal. Consistent with this philosophy, the NEOs participate in the Company's employee benefit plans on the same terms as other employees. These plans include medical and dental insurance, disability coverage, life insurance, the ESPP and the 401(k) plan.

Compensation of the Chief Executive Officer

Our CEO generally participates in the same executive compensation program provided to our other executive officers and senior management as described above, except that for 2021, our CEO received a portion of his RSUs in the form of performance-based RSUs whereas other executives only received time-based RSUs. The Compensation Committee's approach to setting compensation for the CEO is to be competitive with comparable companies and to have a significant portion of total compensation depend upon the achievement of performance goals for the Company.

In February 2021, the Compensation Committee approved an increase in the annual base salary for Mr. Bryant from \$850,000 to \$875,500. As described above, under the revised 2021 Cash Incentive Plan, the Compensation Committee approved payout at 125% of target with payout reduced by 50% per the modified plan terms, effective January 31, 2022, for combined achievement of adjusted EBITDA and other performance goals. Accordingly, Mr. Bryant earned a payout of \$547,188. As discussed above under the "—Longer-Term Equity Incentive Awards" section, in 2021, Mr. Bryant was also awarded 4,462 shares of time-based RSUs, 4,462 shares of performance-based RSUs, and 8,924 shares of non-qualified stock options under the 2021 long-term equity incentive program, as well as 11,140 shares of non-qualified stock options for his efforts and contributions to the achievement of certain key milestones.

Compensation of the Other Named Executive Officers

In February 2021, the Compensation Committee approved an increase in the base salaries of Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll. Ms. Hodges's base salary was subsequently adjusted and the base salaries were approved as follows:

Executive Officer	Prior Base Salary	2021 Base Salary
Randall J. Steward Chief Financial Officer	\$ 485,000	\$ 499,550
Robert J. Bujarski Chief Operating Officer	\$ 515,000	\$ 525,000
Michelle A. Hodges SVP, General Counsel	\$ 401,700	\$ 450,000
Werner Kroll, Ph.D. SVP, Research and Development	\$ 407,679	\$ 550,000

As described above, the Compensation Committee approved payout at the maximum level, effective January 31, 2022, under the revised 2021 Cash Incentive Plan for combined achievement of EBITDA and other performance goals for these officers, and, accordingly, Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll earned a payout of \$234,164, \$246,094, \$210,938 and \$257,813, respectively.

As discussed above under the "—Longer-Term Equity Incentive Awards" section, in 2021, Mr. Bujarski and Ms. Hodges were awarded shares of time-based RSUs and non-qualified stock options and Mr. Steward and Dr. Kroll were awarded shares of time-based RSUs.

- (1) These rows show the potential value of the payout under the “Estimated Future Payouts Under Non-Equity Incentive Plan Awards” columns for each NEO under the 2021 Cash Incentive Plan, as revised, if the threshold, target, and maximum goals are satisfied for all performance measures. The business measurements, performance goals and salary and bonus multiples for determining the payout are described in the “—Compensation Discussion and Analysis” section. The performance measurements were achieved in fiscal year 2021 in the aggregate at the maximum level, as revised, for Mr. Bryant and the other NEOs and payouts were made as described in the “—Compensation Discussion and Analysis—Annual Cash Incentive Awards” section and in Note (4) to the Summary Compensation Table.
- (2) These columns show the potential number of awards to be paid out to Mr. Bryant related to the performance-based RSUs if the target is achieved. The performance-based RSUs for Mr. Bryant were granted on February 1, 2021 and vest over a five-year period, the vesting of which is tied to the achievement of net revenue growth targets over any three consecutive fiscal year period starting with the three-year period ending in 2023.
- (3) This column shows the number of time-based RSUs granted in 2021 to the NEOs. Time-based RSUs for Mr. Bryant, Mr. Bujarski and Ms. Hodges vest over a four-year period, with 25% vesting each year on the anniversary of the grant date. Time-based RSUs for Mr. Steward and Dr. Kroll vest over a three-year period, with one-third vesting each year on the anniversary of the grant date. This column also includes the number of RSUs granted in 2021 under the 2021 Employee Deferred Program. For the RSUs under the 2021 Employee Deferred Program, the number is equal to (i) the amount of the NEO’s bonus deferred under the program, divided by the market closing price of our common stock on January 31, 2022, multiplied by (ii) either 1.2 or 1.3, as a premium. For Mr. Bryant, Mr. Steward, Mr. Bujarski and Ms. Hodges \$273,490, \$117,004, \$122,998 and \$105,428 (included in the “Grant Date Fair Value” column), respectively, represent compensation deferred and are included in the “Non-Equity Incentive Plan Compensation” column of the Summary Compensation Table.
- (4) This column shows the number of stock options granted in 2021 to the NEOs. These options vest and become exercisable over a four-year period, with 25% vesting each year on the anniversary of the grant date, except for the stock option granted to Mr. Bryant on July 28, 2021, which vests and becomes exercisable over a three-year period, with one-third vesting and becoming exercisable each year on the anniversary of the grant date.

- (5) This column shows the exercise price for the stock options granted, which was the closing price of our common stock on the grant date.
- (6) This column shows the full grant date fair value under ASC Topic 718 of time-based RSUs, performance-based RSUs and stock options granted to the NEOs in 2021. For the time-based RSUs and performance-based RSUs, fair value is calculated using the closing price of our common stock on the grant date. The grant date fair value is the amount that we would expense in our Consolidated Financial Statements over the award's vesting schedule, unless the NEO leaves the Company. For stock options, fair value is calculated using the Black-Scholes value on the grant date and is the amount that we would expense in our Consolidated Financial Statements over the award's vesting schedule, unless the NEO leaves the Company. For additional information on the valuation assumptions, refer to Note 6 of our Consolidated Financial Statements in the Original 10-K.

Employment, Change in Control and Severance Arrangements

In connection with the appointment of Mr. Bryant as our President and CEO on January 16, 2009, Mr. Bryant entered into an employment agreement with us. Mr. Bryant's employment agreement sets forth the terms of his employment with us and provides for, among other matters: (i) a minimum base salary of \$450,000 per annum, subject to upward adjustment by the Board or its Compensation Committee; and (ii) an annual cash incentive bonus based upon attainment of performance goals set by the Board or its Compensation Committee with a target of at least 80% of base salary and a maximum opportunity of at least up to 120% of base salary.

Under his employment agreement, Mr. Bryant is an "at-will" employee of the Company, which means that either Mr. Bryant or we may terminate his employment at any time for any reason. However, and except in the context of a change in control, if Mr. Bryant's employment with us is terminated without "cause" or he terminates his employment for "good reason" (each as defined in his employment agreement) and thereafter delivers and does not revoke a general release, he is entitled to a severance payment equal to eighteen (18) months of his then-current base salary and payment of health insurance premiums for a period of eighteen (18) months following termination. Amounts payable to Mr. Bryant upon a change in control of the Company are generally governed by his change in control agreement, dated as of January 16, 2009, which is described below.

Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll are each "at will" employees of the Company with compensation arrangements that include, among other items: (i) a base salary for 2021 of \$499,550, \$525,000, \$450,000 and \$550,000 per annum, respectively; and (ii) eligibility for an annual cash bonus in accordance with our Cash Incentive Plan. In addition, except in the context of a change in control, if we terminate Mr. Bujarski's employment without cause, he would be entitled to a severance payment equal to six months of his annual salary.

Mr. Steward and Dr. Kroll each entered into individual retirement and retention programs with us in November 2019 and February 2020, respectively. These programs were entered into and approved by the Board and the Compensation Committee as part of our succession planning and to incentivize Mr. Steward to continue employment through at least March 31, 2022 and Dr. Kroll to continue employment through at least March 31, 2023. On February 1, 2022, the Company and Mr. Steward entered into an amendment to his individual retirement program, which extended the term of his employment beyond March 31, 2022 through the earlier of the consummation of the Ortho business combination or termination of the business combination agreement. For each calendar year that Mr. Steward continues to be employed by the Company as its CFO, he will receive RSUs with a value on the grant date of \$1,300,000 that will vest one-third each year on the anniversary of the grant date, subject to Mr. Steward's continued employment with the Company in any capacity. For each calendar year that Dr. Kroll continues to be employed by the Company as its Senior Vice President, Research and Development, he will receive non-qualified stock options and/or RSUs with a value on the grant date of \$1,000,000 that will vest one-third each year on the anniversary of the grant date, subject to Dr. Kroll's continued employment with the Company in any capacity. The programs contemplate that the RSU and/or option grants described above will constitute the sole equity incentive compensation that Mr. Steward and Dr. Kroll will be entitled to receive on or after January 1, 2020, unless the Company determines otherwise. Dr. Kroll's individual retirement program contemplates that if he remains employed and in good standing in his position through the target date, then upon ceasing to serve in his current role, he will enter into a special advisor agreement, in the form provided in his program, and be engaged as a full-time employee, serving as a non-officer special advisor for a period of one year at a reduced pay rate and his equity awards will continue to vest and be governed by the applicable equity incentive plan and award agreements. Mr. Steward's individual retirement program contemplates that if he remains employed and in good standing in his position through the target date, then upon ceasing to serve in his current role, he will enter into a special advisor agreement, in the form provided in his program, and be engaged as a full-time employee, serving as a non-officer special advisor for a period of one year at a pay rate of \$300,000 per year and his equity awards will continue to vest and be governed by the applicable equity incentive plan and award agreements through the one-year period following the earlier of the consummation of the Ortho business combination or termination of the business combination agreement.

Each of Mr. Bryant, Mr. Steward, Mr. Bujarski, Ms. Hodges and Dr. Kroll has entered into a change in control agreement with us, which provides for the payment of severance benefits in the event of termination of employment in connection with a change in control of the Company. The severance benefits are payable if their respective employment with us is terminated within 30 days prior to or three years following a change in control, unless terminated for cause or the termination is the result of a voluntary resignation (which does not include resignations stemming from a material adverse change in responsibilities, status, compensation, authority or location of workplace) or their death or disability. The change in control agreement for each of our NEOs includes a covenant by the NEO to not solicit, recruit or hire-away our employees or solicit, influence or attempt to influence any person or entity to terminate such person's or entity's contractual and/or business relationship with the Company.

The severance benefits under the change in control agreements generally consist of a lump sum cash payment equal to one or two times the sum of (i) such executive's highest annual salary rate within the three-year period ending on the date of termination, plus (ii) an amount equal to the annualized average of all bonuses paid to the executive during the two-year period immediately before the date of termination. In addition, the change in control agreements provide for: payment of \$25,000 to help defray the legal, tax and accounting fees and other costs associated with transitional matters; continued coverage for one or two years under our group medical insurance, group dental insurance and group vision insurance programs, unless and to the extent the executive obtains concurrent coverage through another program, in which case our coverage will be terminated or reduced as applicable; and immediate vesting and exercisability of any and all unvested stock options and RSUs held by the executive (unless previously waived or otherwise expressly agreed to by the executive).

Potential Post-employment Payments

As described above, our NEOs have employment, severance and/or change in control agreements with us. The table below illustrates the compensation that would be payable by us to each NEO in the event of a change in control of the Company or a termination of the NEO's employment with the Company for various described reasons, sometimes referred to in this section as a "triggering event." In accordance with applicable SEC rules, the following illustrations assume:

- that the triggering event in question, the death, disability, change in control or termination occurred on December 31, 2021, which was the last full business day prior to the last day of our 2021 fiscal year end, which fell on Sunday, January 2, 2022; and
- the calculations provided below are based on the closing market price of our common stock as of December 31, 2021, which was \$134.99.

In addition, in connection with any actual termination of employment, the Board or the Compensation Committee may determine to enter into an agreement providing additional benefits or amounts, or altering the terms of benefits described below, as deemed appropriate by the Board or the Compensation Committee. The illustrations exclude any vested awards deferred pursuant to our Employee Deferred Programs. The actual amounts that would be paid upon an NEO's termination of employment can only be determined at the time of such NEO's separation from the Company. Due to the number of factors that affect the nature and amount of any benefits provided upon the events discussed below, any actual amounts paid or distributed may be higher or lower than reported below. Factors that could affect these amounts include our stock price at the time of termination and determinations by our Board.

- (2) This amount represents the annualized average of all bonuses paid to the NEO in 2020 and 2021.
- (3) This represents the value of unvested RSUs and unearned performance-based RSUs at target levels, including Premium RSUs earned pursuant to the Employee Deferred Programs as detailed in the “Nonqualified Deferred Compensation” table.
- (4) This represents the intrinsic value of in-the-money unvested stock options (based on a market price of \$134.99 per share as of the last full business day prior to the end of our fiscal year 2021).
- (5) Per the change in control agreements, for one or two years, coverage is continued under our group medical insurance, group dental insurance and group vision insurance programs, unless and to the extent the NEO obtains concurrent coverage through another program, in which case our coverage will be terminated or reduced as applicable. In addition, if Mr. Bryant’s employment is terminated without “cause” or he terminates his employment for “good reason” (each as defined in his employment agreement) and thereafter does not revoke a general release, he is entitled to receive payment of health insurance premiums for a period of eighteen (18) months following termination.
- (6) Each NEO’s change in control agreement provides for payment of \$25,000 to help defray the legal, tax and accounting fees and other costs associated with transitional matters.

CEO Pay Ratio

We are providing the following information regarding the relationship of the annual total compensation of our CEO and that of our “median employee,” as required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K. The pay ratio information provided below is a reasonable estimate calculated in a manner consistent with these pay ratio disclosure rules.

For our 2021 fiscal year:

- The estimated median of the annual total compensation of all of our employees, excluding the CEO, was \$79,053;
- The annual total compensation of our CEO, as reported in the Summary Compensation Table, was \$5,546,216; and
- The ratio of the annual total compensation of our CEO to the median of the annual total compensation of all other employees was estimated to be 70 to 1.

In determining the pay ratio information provided above, we first identified our “median employee” for the 2021 fiscal year by using the following methodology, as permitted by the SEC’s pay ratio disclosure rules:

- We selected December 31, 2021 as the date upon which we would identify our employee population and median employee and, from our tax and payroll records, we compiled a list of 1,645 total full-time, part-time, temporary and seasonal employees who were employed on that date.
- We used total cash compensation during the 2021 fiscal year as a consistently applied compensation measure to identify our median employee from the employees on the list. For this purpose, we define total cash compensation as base wages. We did not include incentive cash compensation because our incentive cash compensation program does not extend throughout the organization and would therefore not be expected to impact the determination of the median employee.

Once our median employee was identified in the manner described above, we calculated the annual total compensation of the median employee using the same methodology that we used to determine the annual total compensation of our CEO, as reported in the Summary Compensation Table.

It should be noted that the SEC’s pay ratio disclosure rules provide reporting companies with flexibility in determining the methodology used to identify the median employee and the pay ratio. Accordingly, our methodology may differ materially from the methodology used by other companies to prepare their pay ratio disclosures, which may contribute to a lack of comparability between our pay ratio and the pay ratio reported by other companies, including those within our industry.

Compensation Committee Interlocks and Insider Participation

Mr. Michael, Dr. Buechler, Ms. Ordoñez and Dr. Polan are not current or former officers or employees of ours, and none has engaged in any transaction that would be required to be disclosed in this Amendment by Item 404 of Regulation S-K. There is no relationship that requires disclosure as a compensation committee interlock for purposes of Item 407(e)(4) of Regulation S-K.

Director Compensation

The current compensation and benefit program for non-employee directors is designed to achieve the following goals: compensation should fairly pay directors for work required for a company of our size and scope; compensation should align directors' interests with the long-term interests of our other stockholders; and the structure of the compensation should be simple, transparent and easy for stockholders to understand. The table below relating to non-employee directors' compensation includes the following compensation elements.

Annual Cash Retainers

The Chairman of the Board currently receives an annual cash retainer of \$92,400. Each of the other non-employee directors receives an annual cash retainer of \$50,000.

The Chair of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee receives an additional annual cash retainer of \$20,000, \$15,000 and \$10,000, respectively.

Non-employee Director Deferred Compensation Program

In December 2010, the Board adopted a non-employee director deferred compensation program that began in 2011. Participating directors may elect on a yearly basis (for the yearly period between the Company's annual meetings of stockholders) to receive 50% or 100% of the cash value of the director's (i) annual retainer fee and (ii) compensation for service as a Chair of any of the Board's standing committees (collectively, the "Covered Fees") in the form of fully vested RSUs, plus an additional premium on such percentage of the Covered Fees, in the form of additional RSUs, which are subject to a one-year vesting requirement (the "Director Premium RSUs"). The additional premium applicable to the Director Premium RSUs shall be determined based on the length of time of the deferral period (between the grant date and the date the shares of common stock underlying the RSUs are to be issued) selected by the participating director as follows: (i) if one (1) year from the grant date, a premium of 10% on the amount of the Covered Fees deferred; (ii) if two (2) years from the grant date, a premium of 20% on the amount of the Covered Fees deferred; or (iii) if four (4) years from the grant date, a premium of 30% on the amount of the Covered Fees deferred. The RSUs are currently granted under the Company's 2018 Equity Incentive Plan (the "2018 Plan") (or applicable successor plan) as of the date of the applicable annual meeting of stockholders, and the number of shares awarded as RSUs is calculated based on the closing price of our common stock on the date of the applicable annual meeting.

The table below sets forth the amount deferred, deferral period and amount of Covered Fees RSUs (as defined below) and Director Premium RSUs granted to each non-employee director for 2021.

Periodic Equity Awards

The Board periodically assesses potential equity awards to non-employee directors. On May 18, 2021, the Board approved RSU grants with a total valuation of \$190,000 for each non-employee director. Accordingly, a grant of 1,624 RSUs (with a fair value per RSU based on the closing price of our common stock on the grant date) was made to each non-employee director. The RSUs vest upon the first anniversary of the grant date.

Mr. Wilkins was appointed to the Board in February 2021. As part of Mr. Wilkins's appointment to the Board, the Board approved a RSU grant with a total valuation of approximately \$47,500. Accordingly, a grant was made to Mr. Wilkins of 289 RSUs (with a fair value per RSU based on the closing price of our common stock on the grant date), which vested on May 12, 2021.

Director Stock Ownership Guidelines

We believe that each director should have a meaningful equity investment in our Company. Our director stock ownership guidelines were revised in November 2020 to increase the stock ownership threshold for non-employee directors to five times their respective annual cash retainer. Directors are expected to satisfy and maintain this stock ownership threshold within five years of joining the Board. All of our directors meet these stock ownership guidelines or are in compliance with the guidelines by retaining equity awards until compliance is reached.

We have written policies and procedures for monitoring and seeking approval in connection with any Interested Transaction. Our legal and finance departments assist in monitoring Interested Transactions and our Audit Committee reviews, approves (or disapproves) or ratifies Interested Transactions. In considering whether to approve or ratify an Interested Transaction, the Audit Committee takes into account, among other factors it deems appropriate, whether the Interested Transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar terms and conditions and the extent of the related person’s interest in the Interested Transaction. In addition, our written policy provides that no director shall participate in any discussion or approval of an Interested Transaction for which he or she is a related party, except that the director shall provide all material information concerning the Interested Transaction to the Audit Committee.

Related Party Transactions

No director, nominee for director, executive officer or beneficial holder of more than 5% of our outstanding common stock or any immediate family member of any of the foregoing had any material interest, direct or indirect, in any reportable transaction with us or had any reportable business relationship with us during the 2021 fiscal year or since the commencement of the current fiscal year.

The Audit Committee may also pre-approve particular services on a case-by-case basis. In assessing requests for services to be provided by our independent registered public accounting firm, the Audit Committee considers whether such services are consistent with the auditor's independence, whether the independent registered public accounting firm is likely to provide the most effective and efficient services, and whether the services could enhance our ability to manage or control risk or improve audit quality.
